Berger, 1972 **Introductory Mathematical Analysis for Business, Economics, and the Life and Social Sciences** Ernest F. Haeussler, Richard S. Paul, 1996 Introducing mathematical analysis to business economics and social science students this text begins with non calculus topics such as equations functions linear programming and probability The work then progresses through both single variable and multivariable calculus **An Introduction to Modern Business Statistics** George C. Canavos, Don M. Miller, 1999 Using the computer to eliminate rote computation and facilitate learning this book inspires and motivates readers to learn statistics by showing them its great practical importance to their careers In every chapter the authors include an ample number of examples and vignettes that illustrate and emphasize skills that enable students to interpret data

effectively and to convert data into usable information This approach enhances students abilities to make better decisions thus preparing them to exert greater influence in their future careers To reinforce the idea that statistics is the linkage that transforms data into useful information thereby enhancing planning and decision making almost every numbered example includes introductory language that articulates the importance of the illustration in a functional area of business The authors use Microsoft Excel MINITAB and JMP IN statistical software to execute statistical methods presenting computer outputs and interpretation first then illustrating the method using statistical tables In addition to promote the learning of fundamentals the authors also take the users through many methods step by step using examples with very small data sets Chapter appendices provide clear detailed instructions on the use of Excel MINITAB and JMP IN Users are not just purchasing a textbook every new copy of the book is packaged with a student software and data disk This disk contains Data Analysis Plus Add ins for Microsoft Excel as well as all the data sets used in the book formatted for Excel MINITAB JMP IN and ASCII In addition to the many examples and exercises they included in the First Edition the authors add approximately 120 exercises based on published articles in academic journals the popular media or widely available sources of data Many of these exercises contain large data sets and many are revisited in subsequent chapters

Introduction to Business Statistics
Alan H. Kvanli, Robert J. Pavur, Carl Stephen Guynes, 2000

As with earlier editions this text fully integrates the use of computers with statistics This edition has retained the non intimidating approach to describing the concepts and applications of statistics while giving students the opportunity to observe and actually carry out computer generated solutions using a statistics package like MINITAB or a spreadsheet package like Excel The text has also been designed so that those requiring a more traditional calculator based approach will find an abundance of exercises and examples that can be solved in that manner A CD ROM presenting data sets and special Excel macros that Robert Pavur Professor U of North Texas has created will be bound into the back of the book
