Working for Change Derick W. Brinkerhoff, Jennifer M. Brinkerhoff, 2005 A Foreword Magazine Book of the Year Finalist for 2005 Focuses on development management positions in international service employment Devises the concept of the service choice spiral in career evolution Provides information about volunteer and professional opportunities organizations and degree programs In *Working for Change* Derick and Jennifer Brinkerhoff explore career paths in international public service focusing on development management positions They offer practical and inspiring guidance on finding the right mix of public service objectives degree programs job opportunities and personal lifestyle choices The Brinkerhoffs concept of career evolution is encapsulated in a framework they call the service choice spiral This model rejects standard set the goal plot the steps planning and pulls one s personal values skills professional goals and sense of altruism into a solid career choice Through profiles of six public service professionals the Brinkerhoffs illustrate how real people have faced the choices that confronted them in the course of their careers *Working for Change* will assuredly become the ideal guide and resource for anyone considering work in public service and mid career professionals looking for a change in direction It will also serve as a powerful resource for university career development officers and faculty advisors View the entire book online at ebrary.com here

International Development from a Kingdom Perspective James Butare-Kiyovu, 2010 The ongoing task of international development has dominated the headlines and the airwaves as of late especially with the establishment of the Millennium Development Goals the growing numbers of celebrities involved in charity work and an expanding global awareness of our humanity s interdependence Nowhere has the challenge of international development been more acutely felt than among Christian congregations and faith based NGOs While followers of Christ certainly face a daunting challenge in the fight against global issues of poverty and oppression there has never before been a time when Christians have been as equipped to help and informed about the situation of our world as they are now With this in mind Christians everywhere can move forward in their task of development with hope in their hearts The articles compiled here by James Butare Kiyovu highlight the promise God holds out for those who would work towards shalom on this earth and offer the same challenge that is quoted from the late Dr Ralph D Winter in the introduction to this anthology No generation has less excuse than ours if we do not do as He asks Sign up for the WCIU Press newsletter to be notified about new books from this author and more <http://eepurl.com/rB15L>

Governing Digitally Integrated Genetic Resources, Data, and Literature Jerome H. Reichman, Paul F. Uhler, Tom Dedeurwaerdere, 2016-05-19 The free exchange of microbial genetic information is an established public good facilitating research on medicines agriculture and climate change However over the past quarter century access to genetic resources has been hindered by intellectual property claims from developed countries under the World Trade Organization s TRIPS Agreement 1994 and by claims of sovereign rights from developing countries under the Convention on Biological Diversity CBD 1992 In this volume the authors examine the scientific

community's responses to these obstacles and advise policymakers on how to harness provisions of the Nagoya Protocol 2010 that allow multilateral measures to support research. By pooling microbial materials data and literature in a carefully designed transnational infrastructure, the scientific community can facilitate access to essential research assets while simultaneously reinforcing the open access movement. The original empirical surveys of responses to the CBD included here provide a valuable addition to the literature on governing scientific knowledge commons. [BNA's Banking Report](#), 2004. *The Life Model of Social Work Practice* Alex Gitterman, Carolyn Knight, Carel B. Germain, 2021-02-02. Originally published in 1980, *The Life Model of Social Work Practice* was the first textbook to introduce the ecological perspective into social work practice. This fourth edition brings the text up to date by expanding and deepening this perspective. Integrating contemporary theory and research findings with numerous case illustrations drawn from a wide range of practice contexts, this textbook provides students with an invaluable introduction to the real world of social work practice and includes knowledge, methods, and skills for advanced practice. The authors detail the theoretical foundation of the ecological perspective and the life model's emphasis on evidence and ethics-guided practice, culturally competent and diversity-sensitive practice, and the multiple sources of accountability that social workers face. The text features an extensive discussion of the principles of trauma-informed practice and their implications for social work practice. Its discussion of cultural competence and sensitivity to diversity incorporates contemporary concepts such as cultural humility and privilege, intersectionality, and critical race theory and presents their application to practice. The authors integrate current research throughout the text and provide numerous research applications to underscore and model the importance of evidence-guided practice. The fourth edition reflects the National Association of Social Workers Code of Ethics and the Council on Social Work Education's most recent set of competency standards, which accredit social work schools and programs. It is accompanied by a teacher's guide that provides chapter summaries, recommended teaching methods and skills, questions for discussion, and suggested assignments, and identifies where in the text the nine EPAS competencies and their associated practice behaviors are addressed.
