Michael Savage Pew Report:

Trumpism, Mexican America, and the Struggle for Latinx Citizenship Phillip B. Gonzales, Felipe Gonzales, Renato Rosaldo, Mary Louise Pratt, 2021-10-15 Driven by the overwhelming political urgency of the moment the contributors to this volume seek to frame Trumpism's origins and political effects

Unequal America Anthony DiMaggio, 2020-12-09 This book examines Americans and their beliefs about the class divide in the United States. It argues that Americans' beliefs about class and the economic divide develop through a multistep process. Economic affluence influences the development of worldview measured in terms of ideology, partisanship, and self-identified class consciousness. Class consciousness in turn affects how people look at political and economic issues. This book is intended for scholars and students at every level who study inequality from a political, economic, or sociological position, along with general readers with a growing interest in and awareness of the effects of inequality on our democracy, especially in the wake of the Covid-19 pandemic, the resulting economic contraction, and the protests over racial injustice erupting throughout the world in 2020.

The Future of Islam John L. Esposito, 2010-02-04 John L. Esposito is one of America's leading authorities on Islam. Now in this brilliant portrait of Islam today and tomorrow, he draws on a lifetime of thought and research to sweep away the negative stereotypes and provide an accurate, richly nuanced, and revelatory account of the fastest growing religion in the world. Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics: Are Islam and the West locked in a deadly clash of civilizations? Is Islam compatible with democracy and human rights? Will religious fundamentalism block the development of modern societies in the Islamic world? Will Islam overwhelm the Western societies in which so many Muslim immigrants now reside? Will Europe become Eurabia, or will the Muslims assimilate? Which Muslim thinkers will be most influential in the years to come? To answer this last question, he introduces the reader to a new generation of Muslim thinkers: Tariq Ramadan, Timothy Winter, Mustafa Ceriç, Amina Wadud, and others, a diverse collection of Muslim men and women, both the Martin Luthers and the Billy Grahams of Islam. We meet religious leaders who condemn suicide bombing and who see the killing of unarmed men, women, and children as worse than murder; who preach toleration and pluralism; who advocate for women's rights. The book often underscores the unexpected similarities between the Islamic world and the West, and at times turns the mirror on the US, revealing how we appear to Muslims. All to highlight the crucial point that there is nothing exceptional about the Muslim faith. Recent decades have brought extraordinary changes in the Muslim world, and in addressing all of these issues, Esposito paints a complex picture of Islam in all its diversity, a picture of urgent importance as we face the challenges of the coming century.

Collateral Damage Kim Darroch, 2020-10-13 One of the UK's most experienced and respected diplomats reveals the inside story behind his resignation and his perspective on the challenges of Brexit and the Trump White House. Real Donald Trump: The wacky ambassador that the UK foisted on the United States is not someone we are thrilled with; a very stupid guy. We will no longer deal with him. Kim Darroch is one of the UK's

most experienced and respected diplomats and this unvarnished behind the scenes account will reveal the inside story behind his resignation describe the challenges of dealing with the Trump White House and offer a diplomat's perspective on Brexit and how it looked to Britain's closest ally Darroch was the British Ambassador to the US as the age of Trump dawned and Brexit unfolded He explains why the British embassy expected a Trump victory from as early as February 2016 what part every key figure from Steve Bannon to Sarah Sanders has played in Trump's administration and what balanced policy makers on both sides of the Atlantic should consider during this era of seismic change and populist politics A riveting account from the best informed insider Collateral Damage charts the strangest and most convulsive period in the recent history of Britain and the US and shows how thirty months threatened to overturn three centuries of history *Answering Back* David Coates,2009-12-31 *Answering Back* presents the conservative and liberal arguments on eight key policy issues trickle down economics welfare social security health care immigration control religion the war in Iraq and economic prosperity **No Questions Asked** Lisa Finnegan,2006-11-30 *No Questions Asked* takes an overarching view of media coverage from the day of the 9/11 attacks through the war in Iraq It also compares and contrasts how the U.S. media vs international media covered key events during this period Fact based rather than polemical the book explains why journalists responded the way they did during wartime and explores the ramifications for democracy of a weak press The Fourth Estate's most important job is to present unbiased accurate information about events issues and policies to the public Without public scrutiny administrations can become a breeding ground for bad and dangerous ideas In recent years for several reasons including the brilliant psychological manipulation of the nation after the September 11 2001 attacks the American media have allowed administration officials to present information to the public without having to worry much about answering uncomfortable questions or having their policies deconstructed for public consumption Relevant information is buried deep inside newspapers and gaping holes can be found in many stories in short obvious and important questions remain unasked The lack of questions from reporters led to a misunderstanding of the facts by the American public and consequently to their support of policies based on misinformation Polls have revealed that more than half of Americans believe mistruths about the war in Iraq and world terrorism Many including members of the media say the press has failed to do its job Very few news reports filled in the basic blanks the who what where when and whys about U.S. foreign policy the USA Patriot Act the administration's insistence on the need for secrecy and more power the truth about weapons of mass destruction in Iraq and the necessity of sending our soldiers to topple another country's dictator throwing an already tenuous region into dangerous imbalance Very few reports are filling in those blanks now *Culture Wars* Roger Chapman,2010 Featuring hundreds of A-Z entries and numerous photos the set examines the history and relevance of the issues events controversies personalities groups and concepts that have contributed to the political and social polarization of American society over recent decades It details hot button topics as well as the role of the media in defining and shaping these issues everything from abortion the
