Peace Corps Volunteers improve the lives of people in communities around the world. If you are a family member or friend of a prospective Volunteer, it's important for you to understand Peace Corps service to play a supporting role in their success. The information provided here, along with [peacecorps.gov/family](https://www.peacecorps.gov/family), will help answer questions asked frequently by Volunteers' loved ones and address common concerns.

## Health and Safety

The well-being of Volunteers is the Peace Corps' highest priority. Although there are inherent risks to living and traveling in countries where Volunteers serve, the Peace Corps works to protect Volunteers with a thorough training program, medical and emotional support, and a comprehensive safety and security program.

### Volunteer Safety

The Peace Corps assesses and approves the sites where Volunteers will live and work, ensuring these locations are safe.

The Peace Corps provides training that includes language skills, intercultural awareness, and how to adapt personal choices and behavior to be safe and avoid risk factors, and also be respectful of the host country culture.

Volunteers are assigned to work counterparts in their communities, and many live with or near a host family. Integrating into the community fosters an environment where Volunteers are valued and protected as extended family members and respected colleagues.

If a Volunteer's safety or well-being is at risk, Peace Corps staff will help resolve the situation or move the Volunteer to another location.

### All Volunteers have access to

- Medical training and health education
- An emergency medical officer on call 24/7
- Site visits from the Peace Corps medical officer
- Full medical and dental coverage
- Mid-service and close-of-service physical and dental evaluations
- Eligibility for Federal Employees' Compensation Act Benefits

## Volunteer Health

The medical evaluation during the application process ensures that Volunteers are placed where there are adequate resources to meet their specific health-care needs.

Every country where the Peace Corps serves has a medical unit, staffed by one or more credentialed medical officers to provide Volunteers with primary care as needed. If a health problem occurs that cannot be treated locally, the Peace Corps will arrange for medical treatment at an appropriate facility in a nearby country or the United States without cost to the Volunteer.
