Le Spiritisme Fakirisme Occidental:

Investigating the Supernatural Sofie Lachapelle, 2011-06-01 A convincing account of science's flirtation with the marginal and the marvelous from the author of *Conjuring Science* *Journal of the History of the Behavioral Sciences* Sciences were wildly popular in France between 1850 and 1930 when members of the general public and scholars alike turned to the wondrous as a means of understanding and explaining the world Sofie Lachapelle explores how five distinct groups attempted to use and legitimize sciences spiritists who tried to create a new science concerned with the spiritual realm and the afterlife occultists who hoped to connect ancient revelations with contemporary science physicians psychiatrists and psychologists who developed a pathology of supernatural experiences psychical researchers who drew on the unexplained experiences of the public to create a new field of research and metapsychists who attempted to develop a new science of yet to be understood natural forces An enlightening and entertaining narrative that includes colorful people like Allan Kardec a pseudonymous former mathematics teacher from Lyon who wrote successful works on the science of the science and what happened after death *Investigating the Supernatural* reveals the rich and vibrant diversity of unorthodox beliefs and practices that existed at the borders of the French scientific culture in the late nineteenth and early twentieth centuries What is science In her engaging book Sophie Lachapelle probes for an answer by looking at the liminal realm between science and superstition and the attempt to render the supernatural explicable in naturalistic terms Isis A welcome addition to the growing literature on spiritism occultism and physical research in modern France *French History* *Le spiritisme (fakirisme occidental)*. Paul Gibier, 1891 **The Spiritist Fallacy** René Guénon, 2003 Since WW II channeling has largely replaced older styles of mediumship in the movement loosely known as the New Age Yet the two are intimately related As both historical chronicle and metaphysical critique *The Spiritist Fallacy* together with its companion volume *Theosophy History of a Pseudo Religion* is a valuable study of New Age origins Guénon takes the spirit manifestations of the Fox sisters in Hydesville New York in 1847 as his starting point but while accepting the reality of many such manifestations denies that they represent the spirits of the departed He sees them rather as fostering belief in a kind of rarefied materialism as though the spirit of the deceased were no more than an invisible quasi material body and death no more than a shedding of the physical body while the spirit remains otherwise unchanged a belief widespread today in popular culture The author demonstrates how various spirit philosophies are little more than reflections of their own milieux English spirits being conservative and denying reincarnation French spirits accepting reincarnation and espousing progressivist or revolutionary ideas etc And he addresses the strange fact that manifestations associated from antiquity with haunted houses suddenly in the 19th century and within five years of their appearance spawned an international pseudo religious movement speculating that certain magicians possibly from the Hermetic Brotherhood of Luxor may have intentionally produced the Hydesville phenomena by actively projecting hidden influences upon the passive psyches of their mediums The mutual influence of

Spiritism and Theosophy and the adverse affects of spirit entities upon many mediums are also covered in considerable detail The Spiritist Error is both an expos of unconscious Satanism and a highly useful critique of the false ideas of the afterlife which are so prevalent in our time **The academy** ,1886 Hypnotism and Spiritism Giuseppe Lapponi,1907 **The Theosophist** ,1887 **The Spirit World Unmasked** Henry Ridgely Evans,1897 Spiritism and Common Sense Carlos María de Heredia,1922 **Nietzsche's The Anti-Christ** Paul Bishop,2021-12-08 The Anti Christ is one of the most notorious if not the most notorious books by Nietzsche and one of his most frequently misrepresented Presupposing no prior knowledge of Nietzsche or the text nor with Christian beliefs or doctrines Paul Bishop carefully guides students through The Anti Christ section by section Bishop unpacks the difficulties that many readers face when dealing with Nietzsche s rhetoric And he contextualises the text within the wider contexts of Nietzsche s thought as a whole and the broader currents of contemporary 19th and 20th century thought Student resources include a chronology of Nietzsche s life and work a glossary of key terms an index of names and subjects and a guide to further reading **Boletim bibliográfico da Bibliotheca Nacional do Rio de Janeiro** ,1918 **The Land of Hunger Artists** Agustí Nieto-Galan,2023-11-23 The story of the exhibition of hunger emaciated bodies and their enormous impact in the public sphere around 1900 **Academy, with which are Incorporated Literature and the English Review** ,1886 Subject Index of the Modern Works Added to the Library of the British Museum in the Years 1881-1900 British Museum.
