Moreover, I was able to determine various critical incidents from my practice demonstrating the importance of innovation and entrepreneurial leadership. For instance, I recently led a project which involved creating an innovative business model for a new product launch. I used the concepts I learned to develop an innovative and sustainable model. This project was a success and demonstrated the importance of innovation and entrepreneurial leadership in my practice. Thus, I took an online course on the importance of innovation and entrepreneurial leadership in the modern business environment.

*Reflections on Leadership* Larry C. Spears, 1995-05-29 I believe that Bob Greenleaf s essay The Servant as Leader is the most singular and useful statement on leadership that I have read in the last 20 years Despite a virtual tidal wave of books on leadership during the last few years there is something different about Bob Greenleaf s essay something both simpler and more profound For many years I simply told people not to waste their time reading all the other managerial leadership books If you are really serious about the deeper territory of true leadership I would say read Greenleaf from Chapter 20 by Peter M Senge Director of the Center for Organizational Learning at MIT s Sloan School of Management and author of The Fifth Discipline The Art and Practice of the Learning Organization There is a building momentum for enlightened leadership in the for profit world the social sector and many areas of government today Good books that deal with the beliefs and convictions that nurture this movement are not easy to find This is one *Reflections on Leadership* is a worthy and worthwhile gift to all those who attach high value both to their responsibilities and to the people with whom they work from the Foreword by Max DePree Chairman and CEO of Herman Miller Inc and author of *Leadership Is an Art and Leadership Jazz* I could give you three examples of major businesses who have used this business of servant leadership training at times of terrible crisis and have worked themselves out of the crisis Practicing servant leadership had absolutely enormous incredible benefits for them and then they threw it away Because as soon as the crisis passed they said why exert ourselves The great problem is not how to teach servant leadership in the first place but to get organizations to continue to use it and embed it in part of their culture from Chapter 7 by M Scott Peck author of *The Road Less Traveled* *Reflections on Leadership* is fitting tribute to a man whose own sense of service has given all of us hope that at long last leaders will recognize that power of purpose is far stronger than power of position After nearly 30 years Robert K Greenleaf s work has struck a resonant chord in the minds and hearts of scholars and practitioners alike His message lives through others the true legacy of a servant leader Jim Kouzes Chairman and CEO of
