Black Sheep Peter Sims, 2024-05-07 Hundreds of years from now anthropologists will puzzle twenty first century humans lived in some of the wealthiest societies in history yet only a minority of us around a third reported being happy Why One big problem is that so many of us feel trapped playing a part rather than being our true selves pursuing an expected path to success which is supposed to bring happiness but that doesn't actually excite us or nurture our souls Is this you Perhaps you feel out of your natural element much of the time undervalued or left behind Maybe you long to break free and stop following the herd Let's face it though We live in a white sheep world and that's where Peter Sims initially found himself working inside the capital markets of London As just another suit chasing the next sip of sugar water in the hamster wheel of life Sims and his colleagues wondered if there's a better life on the other side Turns out the black sheep were everywhere doing things differently starting with living life If the thought of freeing your inner child exhilarates you we invite you to crack open this book If you yearn to dance to your own music read on If the idea of black sheep reinventing the world from the ground up excites you join Peter as he shares his deeply personal journey and the development of the Black Sheep movement
