Life and Moral Education in Greater China John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-29 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people s mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school based programmes as well as teachers and peers role modelling community services extra curricular activities school discipline charity work pastoral care and school ethos Recognising this inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China

The Live E-Learning Cookbook, 2003 **Life** John Ames Mitchell, 1917

Handbook on Digital Learning for K-12 Schools Ann Marcus-Quinn, Triona Hourigan, 2016-10-07 This book guides the adoption design development and expectation of future digital teaching and learning projects programs in K12 schools It provides a series of case studies and reports experiences from international digital teaching and learning projects in K12 education The book also furnishes advice for future school policy and investment in digital teaching and learning projects

Finally the book provides an explanation of the future capacity and sustainability of digital teaching and learning in K12 schools
