Inclusive Education Vicky Plows, Ben Whitburn, 2017-01-28. Inclusive education has emerged internationally over the past thirty years as a way of developing democratic citizenship. Core to inclusive principles are that improved equity in education can only be achieved by eliminating the economic, cultural, and physical barriers that currently impede learning for particular students. To strengthen inclusive practice to this end, inexorably requires that we attempt to make sense of it in its current form to examine how it is enacted in educational settings from early childhood schools and communities, and

further and higher education to contemplate the restrictions that it might inadvertently create and to consider its effects on members of educational communities Contributions to this edited collection represent diverse perspectives yet share a commitment to challenging existing forms of educational marginalisation through policy practice theory and pedagogy The chapters emerged from discussions at the inaugural Inclusive Education Summit that was held at Victoria University Australia in 2015 They present research that was conducted in Australia New Zealand Indonesia Bangladesh Spain and the UK illustrating transnational interests and diverse approaches to practice Presented in four sections provocations pushing boundaries diverse voices and reflections the chapters explore everyday practice across a range of contexts from educating culturally and linguistically diverse refugee and or socially and economically disadvantaged students to issues of diversity brought about by and through gender giftedness and disability The book will appeal to academics students and practitioners in disciplines including education sociology social work social policy early childhood disability studies and youth studies
