Making Black Girls Count in Math Education Nicole M. Joseph, 2022-08-16 Making Black Girls Count in Math Education explores the experiences of Black girls and women in mathematics from preschool to graduate school deftly probing race and gender inequity in STEM fields Nicole M Joseph investigates factors that contribute to the glaring underrepresentation of Black female students in the mathematics pipeline Joseph s unflinching account calls attention to educational structures and practices that contribute to race and gender based stratification in science technology engineering and mathematics disciplines The author also disentangles a complex network of historical and sociopolitical elements that influence the perception and experiences of Black girls and women both inside and outside of mathematics education In her clear eyed assessment of the intersectional difficulties facing this marginalized group Joseph offers a critical view of the existing mathematics education research practice and policies that have neglected Black girls and women confronts the problematic history of mathematics education policy and considers imbalances in the current teacher workforce in US mathematics programs She then provides practical actionable suggestions for reform Joseph invites students families and educators as well as researchers policy makers and other relevant stakeholders to disrupt systems structures and ideologies She calls for an end to racism and sexism in many areas of mathematics education including learning environments curriculum design and implementation and testing and assessments An essential read for anyone concerned about supporting the mathematical learning and development of Black girls and women this work advocates for coalition building so that greater more equitable opportunities for learning and engagement may be offered to Black female students

JUMP 3 Teacher's Edition Eliza Akana, Jonelle Flight, Suzanne Forbes, 2013-05-04 2nd Edition includes additional formative assessment tools and strategy toolbox for students. If you are looking for a way to help your students master the Common Core State Standards for Mathematics this is it. Best of all JUMP will complement ANY textbook or curriculum. JUMP Journal for Understanding Mathematical Principles is a series of student math journals designed specifically to address the Common Core State Standards for Mathematics. The teacher authors have analyzed and interpreted each Common Core State Standard for Mathematics to provide journal prompts that reflect what students need to know and be able to do at each grade level. Each edition also includes prompts for content vocabulary terms that are essential to understanding mathematical concepts at each grade level. JUMP deepens students' understanding of mathematical concepts while reinforcing critical processes and proficiencies outlined in the CCSS Standards for Mathematical Practice. JUMP asks students to make sense of problems and persevere in solving them, reason abstractly and quantitatively, construct arguments and critique their work, and the work of others, model with mathematics, and use mathematical tools. JUMP can be used in a variety of settings including whole group instruction, small group instruction, peer learning teams, partners, or individual learning. JUMP can be used for a variety of purposes including pre-assessment, formative assessment, summative assessment, guided practice, independent practice, homework, enrichment, intervention, evidence for parent teacher conferences, or evidence for portfolios. JUMP can be used by a variety of educators including general education teachers, special education teachers, teachers of English language learners, math resource teachers, summer school teachers, intervention teachers, or tutors. And again, JUMP will complement ANY textbook or curriculum. The JUMP Student Editions are scaffolded from primary to upper grades. In Grades 1-3, Signal Words are written in color in the prompt to alert students that a task must be performed. These words also are included in corresponding color-coded response boxes. In Grades 4-5, Signal Words™ are written in color in the prompt and there are color-coded response boxes, but at these grade levels, the Signal Words™ are not included in the boxes. The JUMP Teacher's Guides for each grade level are sold separately. The Teacher's Guide contains tips and general directions for using the journals. Also included are full copies of the student journal pages and helpful scoring guides. To assist teachers with lesson planning, the specific Domain, Cluster, and Standard being addressed are also provided for each prompt. The authors of JUMP are veteran teachers who collectively have more than 60 years of teaching experience. They bring their knowledge of curriculum and instruction along with their compassion for children and have created a product that will have your students understanding and talking and writing about mathematics.
