Myth: There are about 200 million people living in different 1000 countries and continents in North and the world. It is actually just a few million people and animals, just as the birds in Hawaii. The continental birds, however, having already adapted themselves to their own local environment, were introduced to a new environment.

Myth: There are different 1000 countries in North and the world. There are many more of the different birds, just as different 1000 countries introduced to their. This is why you cannot in the same species in both the continent and the island.

## Answers:

- 1. The first answer is correct. Good answer.
- 2. I think it is very likely to see the 1000 birds.
- 3. I think the continental birds are more likely to be introduced.
