Writing Computer and Information History William Aspray,2024-05-14 This is not a book about the history of computing or the history of information Instead it is a meta historical book about the research and writing of these types of history The formal presentation of historical research in the form of a publication often hides the process by which the topic was selected boundaries were drawn evidence was selected analytic approach was chosen and applied results were presented how this work fits into a larger body of scholarship the implicit goals and biases of the author and many other similar issues This process of learning about the various ways to carry

out computer history or information history can be enriched by this collection of reflective essays by experienced scholars discussing the craft that they practice This is a book that concerns both computer history and information history The first scholarship in computer history by professionally trained scholars began to appear in the 1970s so we are approaching a half century of research and publication in this area The field has generated numerous pieces of exemplary scholarship from various perspectives such as intellectual history of individual technologies business histories of firms economic histories of market sectors externalist histories of funding and professionalization and so on However the field continues to evolve especially as computing and communication technologies have drawn together in the form of the Internet and social media and with them a new set of scholars is participating drawn not only from the history of science and technology but also from the communication and media studies fields Powerful theories approaches and frameworks are being increasingly drawn more widely from both the humanities and the social sciences to inform the practice of computer history The scholars in this volume look at what s happened what s happening now and where historical scholarship in these disciplines is headed

Digitizing Government A. Brown,J. Fishenden,M. Thompson,2014-11-26 For businesses large and small investment in digital technologies is now a priority essential for success Digitizing Government provides practical advice for understanding and implementing digital transformation to increase business value and improve client engagement and features case studies from the private and public sectors

Humanizing the Digital Economy Victor Glass,2023-09-30 The Coding Revolution a combination of the Digital Revolution and genetic engineering has had a destructive effect on society It has created a platform for extreme views that is loosening our economic cultural and political moorings This book provides a systematic approach to policy and management to promote societal collaboration and unity It describes the changes caused by the Digital Age including the Internet Artificial Intelligence and various other technologies The author then offers a new framework Religious Humanism which incorporates covenants of the Bible the US Constitution and other sources of wisdom to foster collaboration and create a revitalized and inclusive global society Narrative and analytical tools are offered as well as case examples
