my old physical leather notebook and immortalize it in Evernote Evernote David William,2017-04-20 Evernote is the most well known digital notebook app ever made. It is not a notebook app and it doesn't even begin to explain it until it works where you would type in a notebook. The most organized managers would be using it to write the details of their lives and work but that doesn't help. The rest of your life would still be unorganized and still wouldn't be taking notes. The magic of Evernote is that it is an app where you can do anything from taking notes on a scanned document to taking notes on a restaurant menu in your notebook and it can still make notes for you. You can find anything you've recorded in it. And it does it for free on your devices for free. You'll truly never forget anything. Evernote is a cloud-based digital notebook that allows you to take various types of notes on your mobile phone, laptop, or tablet. If you've ever wished you could quickly store your thoughts, ideas, or brainstorming notes with a team before meeting, Evernote is the business solution for you. Thank you for reading this book. **What You Should Learn or**
