

## Algebra 2B - Activity 10.2

1. Based on the grid below, identify each function below as being a linear or a non-linear function.

2. Identify each of the functions below that are **linear**. If they are linear, write the equation of the function. If they are **non-linear**, write the equation of the function.

This is being plotted with the grid for the same function.

3. Graph each of the functions part 2 on the grid below using the grid lines. Be sure to label the x and y axes. If a function is **non-linear**, then graph the function.

Remember, the functions that are **linear** are being plotted on the grid for the same function as the one shown above. Be sure to label the axes.
