1. Based on the grid below, identify each function below as being a linear or a non-linear function.

2. Identify each of the functions below that are **linear**. If you are unsure, explain why you are not sure by looking at the function's graphability to see if it **fits** the **line** test as well as the **line** test of graphs.

This is being graphed with the grid for the same reason.

3. Graph each of the functions part 2 on a coordinate plane. If you are unsure, explain why you are not sure by looking at the function's graphability to see if it **fits** the **line** test as well as the **line** test of graphs.
