

## Pedro's Pool Party

## Geometry Performance Task

Pedro's family is planning a pool party for Pedro's graduation, and they need to rearrange their backyard to set up for the party. Below is the current layout of their yard and a space to create a new layout. Follow the directions below to help Pedro's family determine the best layout for the party.

- Pedro wants to move the lounge chairs so that they are the same distance from the pool but on the other side of it. He wants to place the lounge chairs so that if you sit on them, you are facing the pool. Draw the lounge chairs on the new layout, and describe the transformations that would map them from their old location to their new location.

---

---

- Pedro's dad bought a Super-Speed waterslide to set up on the lawn. The waterslide unfolds to be twice its current length and width. Draw the unfolded slide on the new layout. What transformations map the original area covered by the slide to the new area? Are the original area and the new area similar? Explain how you know.

---

---

- Pedro wants to move the grill closer to the pool. Draw the grill on the new layout so that they are closer to the pool. What transformations would map each grill from its old location to its new location? Are the two grills congruent? Explain how you know.

---

---

- Pedro's mom wants to move the grill farther from the waterslide. Use two different congruence transformations to move the grill. Draw the grill on the new layout, and describe the transformations that map the grill from its old location to its new location.
