Hamlet: Moral Responsibility and Truth

Hamlet was the son of the late King Hamlet and a nephew to the reigning King Claudius. He can be described as an enigma because no matter in how many ways he is analyzed there is no absolute truth that emerges from his character. Moreover, Hamlet is driven by revenge for his father and the belief that his Uncle Claudius had something to do with it. The rage of revenge is intensified when his mother decides to marry his uncle within a month after the death of his father. In addition to this, Shakespeare introduces Hamlet as a dramatic character with radical contradictions; he is courteous yet uncivil, reckless yet cautious, tender yet ferocious. These sentiments portray Hamlet as a complicated character with multiple attributes associated with him. Moreover, the actions of Hamlet can be argued on moral, honor, and justice grounds.

Hamlet character analysis

The death of his father consumes Hamlet with righteous indignation and outrage, yet he does not show any compunction when he is responsible for the death of the royal family. The outrage that consumes Hamlet forms his main motive to avenge the death of his father after a ghost of his late father appears to him. Moreover, Hamlet develops distrust in people around him when he believes they might be spying on him for his uncle. However, this distrust does not portray how much sorrow Hamlet feels as he states "For they are the actions that a man might play, but I have that within which passes show, these but the trappings and the suits of woe" (Shakespeare, Raffel, & Bloom, 2003). In addition to this, the actions of his mother led to Hamlet mistreating Ophelia. Moreover, it is evident that Hamlet is in love with Ophelia but due to the circumstances and the situation he was in, he did not trust anybody. Hamlet is shown taking the anger of his mother on Ophelia this is shown as he yells at Ophelia before confronting his mother. Ideally, Hamlet's treatment of Ophelia is another act of justifying his madness.

Additionally, throughout the play, Hamlet is portrayed as a grief-stricken individual after revenge for his father. However, the method employed by Hamlet is controversial because he inherited the task of avenging the death of his father and correcting a corrupt state due to circumstances and conflicting imperatives. Nonetheless, the method employed by Hamlet resulted in death of the royal family; the result of his actions prompts a moral investigation of the hero he signifies. Moreover, the inconsistency and ineffectiveness of Hamlet's execution of the task is a result of his personal revenge rather than civil justice. In addition to this, despite the fact that civic justice is a right path, it cannot be dispatched with the speed required for vengeance. However, if the task had been conceptualized as civic justice, it would have dulled due to the judicial process, which cannot investigate evidence provided by a supernatural witness, as noted by Hamlet, "Let Hercules himself do what he may, / The cat will mew, and the dog will have his day" (Shakespeare, Raffel, & Bloom, 2003). Moreover, if the task had been executed as justice rather than vengeance, it would have taken more time and developed sympathy other than vengeance that Hamlet wanted.
