Modernizing Academic Teaching and Research in Business and Economics Jorge Marx Gómez, Marie K. Aboujaoude, Khalil Feghali, Tariq Mahmoud, 2017-04-25 This proceedings volume brings together the results of a corporate discussion on research, academic teaching and education in the field of business and economics in the context of globalization. The contributions examine leadership and sustainability, quality and governance, and the internationalization of higher education. With a particular focus on business education and business schools, the book discusses the labor market and modernization, as well as contemporary trends and challenges. By including both academic papers and contributions from industry, it forges research links between academia, business and industry.

Information Technology in Contemporary Organizations Katarzyna Tworek, 2023-04-14 Due to tremendous shifts in the business environment of contemporary organizations following the COVID-19 pandemic, there is a need to redefine the role and importance of information technology (IT) support, which is essential for ensuring an organization's survival. Current models are no longer valid as in the new turbulent and digitalized environment, the need for IT support is more crucial and indispensable than ever. This book proposes a new model explaining the factors influencing the efficiency of adaptable IT support in contemporary organizations, including those operating normally and during crises. The author demonstrates how organizations benefit from IT support not only by enabling higher performance but also by facilitating organizational continuity, reliability, and even survival during various stages of crisis. The proposed model provides a basis for theory development in the field of organizational continuity and reliability, offering a new body of knowledge related to the factors boosting organizational performance gained from IT support and enabling organizational survival. This book will provide valuable findings for scholars performing research in the field of IT use in organizations, IT management, crisis management.
