The book engages with the concept of culture both as an abstract analytical category and specific beliefs and practices. It recognizes that a single best way of managing does not exist, that the applicability of management theories may stop at national boundaries and that fundamental cultural values act as a strong determinant to managerial ideology and practice. The book offers a comprehensive review of the

conceptualisations of culture and its relation with sport management by examining a range of issues the emergence of multiculturalism as a policy issue the impact of commonly shared cultural values within the fitness industry on managers and organisations behaviour building cultural bridges in community sport organisations cultural meanings attached to the consumption of Olympic merchandise and culturally informed interpretation through a reflective analysis of sport management texts This book was published as a special issue of European Sport Management Quarterly *Sport Management* Johan S.
