For centuries man wrote on clay, stone, and papyrus. The earliest form of printing was done in China using hand-cut wooden blocks.

Gutenberg set up the first printing press about 1430. Printing methods have been improved and perfected. Today books and newspapers are printed quickly and efficiently on large computerized presses.

Man always dreamed of flying. Wilbur and Orville Wright are considered the fathers of aviation. The Wright Brothers made the world's first flight in a self-propelled airplane. The flight was made in December 17, 1903. Their plane had flown twelve seconds and went 120 feet. This historic event took place at Kitty Hawk on the North Carolina coast.

Marconi, an Italian, is called the inventor of the radio. There were others who had experimented in this field but Marconi made the final steps. He sent signals without wires. He could not send music or voices. Others worked on perfecting the radio. On Christmas Eve in 1906, the first broadcast was heard.
