[Introduction and Thesis] This template is formatted properly according to MLA style. It contains the correct order, placement, margins, font, headings, etc. Use this document like a form and just fill in your information in the appropriate places.

[Supporting Paragraph] Remember, you need to cite all information in your paper that originated from outside sources. To do this properly according to MLA style format, you will need to include both in-text citations and a Works Cited list. In-text citations are brief parenthetical citations that appear directly after a quote or paraphrased information. The general in-text citation format is (Author's Lastname Page). Here is an example that paraphrases the conclusion of a research study: Research shows that 39% of teenagers prefer green grapes (Smith 39). Another way to format this statement: Smith conducted a study which shows that 39% of teenagers select green grapes over any other color of grape (39). Never repeat the author's last name in a sentence and then again in the citation. Notice the author's last name was not included in the in-text citation of the previous example. Would you prefer to use a direct quote instead? Follow the format: Smith concludes in his study, "After analyzing the preferences of 370 teenagers in the United we have determined that 39.8% selected green grapes over other varieties" (39).
