# MODERN BIOLOGY

A detailed illustration of two owls perched on a branch. The owl in the foreground is shown in profile, looking towards the right. It has dark, mottled feathers on its head and back, with a lighter, buff-colored underbelly. Its eyes are a striking, bright orange-red. The second owl is positioned behind and to the right of the first, partially obscured. The background is dark, making the intricate patterns of the owls' feathers stand out. The overall composition is centered and fills most of the frame.
