## Medea Hackett Classics:

**Alcestis, Medea, Hippolytus** Euripides, 2007 This new volume of three of Euripides most celebrated plays offers graceful economical metrical translations that convey the wide range of effects of the playwright's verse from the idiomatic speech of its dialogue to the high formality of its choral odes

**Medea** Euripides, 2008-03-21 This is the Medea we have been waiting for It offers clarity without banality eloquence without pretension meter without doggerel accuracy without clumsiness No English Medea can ever be Euripides but this is as close as anyone has come so far and a good deal closer than I thought anyone would ever come Arnson Svarlien has shown herself exceedingly skillful in making Euripides sound Euripidean David M Schaps Bryn Mawr Classical Review [Theatre Crafts](#), 1984 [The DC Comics Universe](#) Douglas Brode, 2022-08-02 As properties of DC comics continue to sprout over the years narratives that were once kept sacrosanct now spill over into one another synergizing into one bona fide creative Universe Intended for both professional pop culture researchers and general interest readers this collection of essays covers DC Universe multimedia including graphic novels video games movies and TV shows Each essay is written by a recognized pop culture expert offering a distinct perspective on a wide variety of topics Even though many of the entries address important social themes like gender and racism the book is not limited to these topics Also included are more lighthearted essays for full verisimilitude including analyses of long forgotten or seemingly marginal aspects of the DC Extended Universe as well as in depth and original interpretations of the most beloved characters and their relationships to one another Highly accessible and approachable this work provides previously unavailable inroads that create a richer comprehension of the ever expanding DC Universe

**A Brief Guide to the Greek Myths** Stephen P. Kershaw, 2013-02-07 The book leads the reader through these vibrant stories from the origins of the gods through to the homecomings of the Trojan heroes All the familiar narratives are here along with some less familiar characters and motifs In addition to the tales the book explains key issues arising from the narratives and discusses the myths and their wider relevance This long overdue book crystallises three key areas of interest the nature of the tales the stories themselves and how they have and might be interpreted For the first time it brings together aspects of Greek mythology only usually available in disparate forms namely children's books and academic works There will be much here that is interesting surprising and strange as well as familiar Experts and non experts adults students and schoolchildren alike will gain entertainment and insight from this fascinating and important volume
