*The Earth Through Time* Harold L. Levin, David T. King, Jr., 2016-06-21 The Earth Through Time 11th Edition by Harold L. Levin and David T. King chronicles the Earth's story from the time the Sun began to radiate its light to the beginning of civilization. The goal of *The Earth Through Time* is to present the history of the Earth and the science behind that history as simply and clearly as possible. The authors strived to make the narrative more engaging to convey the unique perspective and value of historical geology and to improve the presentation so as to stimulate interest and enhance the reader's ability to retain essential concepts long after the final exam.

**The Earth Through Time** Harold Leonard Levin, David Thompson King, 2016 *The Earth Through Time* Harold L. Levin, 2009-10-05 This best-selling historical geology text provides geologists with an excellent balance of basic geology and paleontology. The ninth edition presents rich authoritative coverage of the history of the Earth offering the most comprehensive history in the discipline today. It maintains its strong approach to stratigraphy and paleontology that other texts have lost. The text's paleogeographic maps are excellent in detail and are a vital component in understanding the earth's history. Stunning artwork brings the ancient world to life. Geology of National Parks boxes encourage them to visit these parks to appreciate their geological significance. Geologists will also appreciate the questions about past geologic events and the processes used in finding answers.

**The Earth Through Time** Harold Leonard Levin, 1999 This best-selling historical geology text provides an excellent balance of basic geology and paleontology. The new eighth edition provides rich authoritative coverage of the history of the Earth offering the most comprehensive history in the discipline today. It maintains its strong approach to stratigraphy and paleontology that other texts have lost. The text's paleogeographic maps are excellent in detail and are a vital component in understanding the earth's history.

*The Lost Dinosaurs of Egypt* William Nothdurft, Josh Smith, 2002-09-24 The date is January 11, 1911. A young German paleontologist accompanied only by a guide, a cook, four camels, and a couple of camel drivers reaches the lip of the vast Bahariya Depression after a long trek across the bleak plateau of the western desert of Egypt. The scientist Ernst Freiherr Stromer von Reichenbach hopes to find fossil evidence of early mammals. In this, he will be disappointed for the rocks here will prove to be much older than he thinks. They are nearly a hundred million years old. Stromer is about to learn that he has walked into the age of the dinosaurs. At the bottom of the Bahariya Depression, Stromer will find the remains of four immense and entirely new dinosaurs along with dozens of other unique specimens. But there will be reversals, shipments delayed for years by war, fossils shattered in transit, stunning personal and professional setbacks. Then in a single cataclysmic night, all of his work will be destroyed, and Ernst Stromer will slip into history and be forgotten.

The date is January 11, 2000, eighty-nine years to the day after Stromer descended into Bahariya. Another young paleontologist, American graduate student Josh Smith, has brought a team of fellow scientists to Egypt to find Stromer's dinosaur graveyard and resurrect the German pioneer's legacy. After weeks of digging, often under appalling conditions, they fail utterly at rediscovering any of Stromer's dinosaur

species Then just when they are about to declare defeat Smith's team discovers a dinosaur of such staggering immensity that it will stun the world of paleontology and make headlines around the globe Masterfully weaving together history science and human drama *The Lost Dinosaurs of Egypt* is the gripping account of not one but two of the twentieth century's great expeditions of discovery
