

Print quality and troubleshooting guide

Many print quality problems can be solved by replacing a supply or maintenance item that is approaching the end of its intended life. Check the operator panel for a message about a printer consumable. See "Determining the status of supplies" in the *User's Guide* for information about other ways to identify consumables that need to be replaced.

Use the following table to find solutions to print quality problems:

Symptom	Cause	Solution
<p>Repeating defects</p> 	<p>Either the toner cartridges, the photoconductor units, or the fuser are defective.</p>	<p>Marks occur repeatedly only in one color and multiple times on a page: Replace the item if the defects occur every: 33.5 mm (1.32 in.) or 35.7 mm (1.41 in.) for the toner cartridges 28.3 mm (1.11 in.) or 72.4 mm (2.85 in.) for the photoconductor unit</p> <p>Print the Print Quality Test Pages and the <i>Print defects guide</i> to look for defects. See "Printing the Print Quality Test Pages" in the <i>User's Guide</i> for more information. Print the <i>Print defects guide</i> which is available from the Help menu on the printer operator panel.</p> <p>Marks occur down the page repeatedly in all colors: Replace the item if the defects occur every 116.2 mm (4.58 in.) for the fuser</p>
<p>Color misregistration</p> 	<p>Color has shifted outside of the appropriate area (top to bottom or left to right) or has been superimposed over another color area.</p>	<p>Turn the printer off. Remove and reinstall the photoconductor units. Turn the printer on. Select <i>Color Adjust</i> from the <i>Quality Menu</i>.</p> <p>If the problem still exists, see "Aligning the toner cartridges for color registration" in the <i>User's Guide</i> located on the publications CD.</p>
<p>White or colored line</p> 	<p>Either the toner cartridges, the photoconductor units, or the transfer belt are defective, or toner has accumulated in front of the printhead or on the printhead lens.</p>	<p>Clean any spilled toner in the printer housing near the printhead using a soft, clean, lint-free cloth.</p> <p>Clean the printhead lenses. See "Cleaning the printhead lenses" in the <i>User's Guide</i>.</p> <p>Replace the color toner cartridge causing the line.</p> <p>If the problem still exists, replace the photoconductor units.</p> <p>If the problem continues, replace the transfer belt.</p>
