

Wacky People Dichotomous Key Lab 2A

Instructions on how to use the key:

The purpose of using the key is to name the creature shown. Stick with one character until the name is reached, then go to the next.

- A dichotomous key gives instructions in pairs of statements.
- With each character, start with the first pair of statements.
- Decide which description describes your chosen character best and follow the line to the right.
- There will either be a number or a name. If it is a number, go to the pair of steps with that number, for example, if the number is 3, go to steps 3a and 3b.
- If the line ends in a name you have identified your character, so write it down by the creature.
- Continue until each creature has a name. There is only one creature per name, and no creature has two names.
