**Identity Theft, Second Edition** Debra E. Meyerson, Steve Zuckerman, 2025-09-16 Identity Theft Second Edition is an award winning book that follows Stanford professor Debra Meyerson's journey to recover from a severe stroke that initially left her physically incapacitated and unable to speak In addition to providing realistic expectations for the hard work needed to regain everyday capabilities Meyerson and Zuckerman focus on the less frequently documented emotional journey as she and her family rebuild identity in recovery Virtually every stroke survivor is haunted by questions like Who am I now and How do I rebuild a meaningful and rewarding life after losing so much of what they had before capabilities careers and jobs relationships and more This is a book full of hope for survivors from stroke or other life changing injuries or illnesses as well as their care partners families and communities The first edition of Identity Theft centers on Debra's experience her stroke her extraordinary efforts to recover and her journey to redefine herself But she also draws on her skills as a social scientist sharing stories from several dozen fellow survivors family members friends colleagues therapists and doctors she has met and interviewed By sharing this diversity of experiences Debra highlights how every stroke is different and every recovery is different She provides a valuable look at the broad possibilities for successfully navigating the challenging physical recovery and the equally difficult and frequently unspoken emotional journey toward rebuilding one's identity and a rewarding life after a trauma like stroke This second edition is written by Debra and her husband Steve Zuckerman As they have shared in countless talks Just as the original book was headed to the printers we decided that the finish line had become a new starting line They co founded the nonprofit Stroke Onward where they have been working side by side to build an organization that can catalyze change in the healthcare system to better integrate the emotional journey of rebuilding identity into a lifelong recovery process This edition draws on five more years of experience as a post stroke couple and what they've learned from thousands more survivors family members and healthcare professionals They've added new insights about the long term recovery process and how we can change the stroke system of care to better support all survivors and their families Their 4 500 mile bike ride called Stroke Across America in 2021 helped raise awareness for Stroke Onward and stroke survivorship care

**Black Women's Stories of Everyday Racism** Simone Drake, James Phelan, Robyn Warhol, Lisa Zunshine, 2024-04-09 Black Women's Stories of Everyday Racism puts literary narrative theory to work on an urgent real world problem The book calls attention to African American women's everyday experiences with systemic racism and demonstrates how four types of narrative theory can help generate strategies to explain and dismantle that racism This volume presents fifteen stories told by eight midwestern African American women about their own experiences with casual and structural racism followed by four detailed narratological analyses of the stories each representing a different approach to narrative interpretation The book makes a case for the need to hear the personal stories of these women and others like

them as part of a larger effort to counter the systemic racism that prevails in the United States today Readers will find that the women s stories offer powerful evidence that African Americans experience racism as an inescapable part of their day to day lives and sometimes as a force that radically changes their lives The stories provide experience based demonstrations of how pervasive systemic racism is and how it perpetuates power differentials that are baked into institutions such as schools law enforcement the health care system and business Containing countless signs of the stress and trauma that accompany and follow from experiences of racism the stories reveal evidence of the women s resilience as well as their unending need for it as they continue to feel the negative effects of experiences that occurred many years ago The four interpretive chapters note the complex skill involved in the women s storytelling The analyses also point to the overall value of telling these stories how they are sometimes cathartic for the tellers how they highlight the importance of listening and the likelihood of misunderstanding and how if they and other stories like them were heard more often they would be a force to counteract the structural racism they so graphically expose The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4 0 license

**Civic Education & Culture** Bradley C. S. Watson,2005 What do we teach our citizens This great Platonic question is as crucial today as it has ever been America and the West come to terms with this question in the context of their richly diverse technologically sophisticated fundamentally individualistic societies Virtually all would agree that such diversity sophistication and freedom are positive political and cultural goods but many would also argue that they militate against the coherence that all regimes and civilizations must in some way demand The nature extent and coherence of civic education are perhaps the greatest determinants of a regime s politics and culture and the regime can in turn do much to foster the right kind of civic education This book presents the insights of renowned scholars and writers including Stephen H Balch Timothy Fuller and Roger Kimball who have thought broadly and deeply about the role that education at all levels plays in promoting maintaining or undermining our politics culture and society
