
PLTW IED Final Exam Study Guide 2022 With Complete Solution

How might we create the best possible solution to a problem? Correct answer- Engineers try to think "outside the box" in order to solve new problems or find ways to improve current solutions.

What is the most effective way to generate potential solutions to a problem? How many alternate solutions should you generate? Correct answer- Brainstorming with a group, research and testing possible solutions

What is an engineer? What types of work do engineers do? Correct answer- Engineering is the application of mathematics and scientific principles to better or improve life. An engineer is a person who is trained in and uses technological and scientific knowledge to solve practical problems. Research, Develop, Design, Supervise, Manage, Production and Construction, operations, plant management, and sales

Why Keep an Engineering Notebook? Correct answer- An engineering notebook is recognized as a legal document that is used in patent activities to...
Prove the origin of an idea that led to a solution
Prove when events or ideas occurred
Prove diligence in turning the idea into a solution
Prove when an idea became a working solution ("reduced to practice")

What are the 4 best Practices for the Engineering Notebook? Correct answer- Be Neat,
be Accurate,
be Legible,
be Thorough

Explain the concept of proportion. Correct answer- Paying close attention to the underlying basic shapes and the relative proportions of various features of the object will allow you to more accurately reflect the true shapes and proportions of the object in your sketch

Why would the ability to create realistic sketches make a person a more competent designer? Correct answer- Representing existing objects and new ideas with sketches can make the design process more effective and efficient and greatly enhance the

Adult Vocational ESL Jo Ann Crandall,1979 *The Contours of Justice* James Eisenstein,Roy B. Flemming,Peter F. Mardulli,1999-06-24 The Contours of Justice provides a framework for describing and understanding criminal courts throughout the United States by depicting the functions of criminal courts in nine middle sized counties in three states It

integrates concepts from each of the three traditional theoretical approaches to court analysis the individual organizational and environmental approaches The authors approach the courts as communities composed of judges prosecutors and defense attorneys rather than as legal institutions applying formal law They analyze the differences in culture technology physical setting the customary ways of arriving at guilty pleas as well as other aspects of the courts The authors also incorporate information about the political and economic characteristics of the communities that the courts serve along with the basic functions of scheduling cases and assigning personnel to cases The portraits of the nine courts present the day to day activities of judges prosecutors and defense attorneys that lead to the decisions about the fates of the defendants brought to the courts This comparison not only provides a vivid picture of actual court function but allows an assessment of the process that leads to ideas for reform
