Address of the company:

Dear Mr./Ms.,

I am writing to apply for this internship program. My solid obligation to my works has been shown in my various volunteer encounters locally and at college. All through my certification, I chipped in week by week at nearby elementary schools where I lectured Class 6 and 7 subjects. Seeing the students light up with fervor while taking an interest in a scientific exploration or the understudy who has battled with a numerical idea to finally get what to do has been limitlessly compensating for me. Past the prizes, these encounters have shown me how to tailor my way to deal with the students' necessities and viably impart ideas to a gathering. abilities I know would work well for me in my future positions.

I have a real premium in learning however much as could be expected about a vocation in business and finance and would see any errand put before me as a positive learning experience. Through my examination as a math understudy, I have demonstrated my capacity to keep up with high interest, learn convoluted things and not surrender without any problem.

Capable in factual, business information investigation, and dominates in cooperative group based conditions. I trust it is an ideal method to use my abilities to take care of business and monetary issues.

My essential objective in starting a profession in business and money is to obtain however much experience as could reasonably be expected. Not just I desire to develop my insight in current business and monetary universes, yet I would likewise want to secure a portion of the functional abilities that I should be better prepared for in this field.

I accept that working in business and money, I would have the advantage to see the value in that everything on the planet by one way or another influences my work. I would trust that this entry-level position would give me a chance to assemble a functioning relationship with pioneers in the field from whom I could acquire important information. I'm sure that any experience from this temporary job would end up being imperative to me in achieving my future objectives. Thank you for your consideration.

Sincerely,

**Handbook of Moral Motivation** Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 The Handbook of Moral Motivation offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the

research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species
