**The Power of Robert Simpson** Donald Macauley,2013-06-07 Robert Simpson 1921 1997 is widely regarded as the most important British composer in the generation following Benjamin Britten He wrote 11 symphonies 15 string quartets much other chamber music and works for brass band He also wrote definitive studies of Bruckner and Nielsen A committed socialist and pacifist Simpson worked as a volunteer on a mobile surgical unit during the London blitz Brought up in the Salvation Army he later rejected religion and never tried to ingratiate himself with the establishment politely refusing a CBE and resigning as a senior music producer for the BBC after almost thirty years service on a point of principle This is the authorised biography and follows a narrative of his life and works with a series of articles by the composer *International Who's Who in Classical Music 2026* Europa Publications,2026-03-19 The International Who s Who in Classical Music 2026 is a vast source of biographical and contact information for singers instrumentalists composers conductors managers and more Each entrant has been given the opportunity to update his or her information for the new improved 2026 edition Each biographical entry comprises personal information principal career details repertoire recordings and compositions and full contact details where available Appendices provide contact details for national orchestras opera companies music festivals music organizations and major competitions and awards International Who s Who in Classical Music includes individuals involved in all aspects of the world of classical music composers instrumentalists singers arrangers writers musicologists conductors directors and managers Key Features about 8 000 detailed biographical entries covers the classical and light classical fields includes both up and coming musicians and well established names This book will prove valuable for anyone in need of reliable up to date information on the individuals and organizations involved in classical music George Rochberg Joan DeVee Dixon,1992 This is the first and only scholarly book to date on George Rochberg b 1918 the pre eminent post WWII American composer and essayist It was compiled with his assistance and gathers into one volume previously scattered and hard to find material by and about the composer Included are traditional types of scholarly information on Rochberg e g his WORKS date of composition publisher timing commission premiere instrumentation program notes by the composer etc DISCOGRAPHY BIOGRAPHY a chronological listing of his compositions and the major events of his life AUTOGRAPH MANUSCRIPTS DOCUMENTS housed in public collections libraries TEXTS used in the works with voice and BIBLIOGRAPHY books articles and reviews by and a bout Rochberg This is an essential guide for any performer scholar critic or student of George Rochberg s music **Musical Performance** Guerino Mazzola,2010-11-16 This book is a first sketch of what the overall field of performance could look like as a modern scientific field but not its stylistically differentiated practice pedagogy and history Musical performance is the most complex field of music It comprises the study of a composition s expression in terms of analysis emotion and gesture and then its transformation into embodied reality turning formulaic facts into dramatic

movements of human cognition Combining these components in a creative way is a sophisticated mix of knowledge and mastery which more resembles the cooking of a delicate recipe than a rational procedure This book is the first one aiming at such comprehensive coverage of the topic and it does so also as a university text book We include musicological and philosophical aspects as well as empirical performance research Presenting analytical tools and case studies turns this project into a demanding enterprise in construction and experimental setups of performances especially those generated by the music software Rubato We are happy that this book was written following a course for performance students at the School of Music of the University of Minnesota Their education should not be restricted to the canonical practice They must know the rationale for their performance It is not sufficient to learn performance with the old fashioned imitation model of the teacher s antetype this cannot be an exclusive tool since it dramatically lacks the poetical precision asked for by Adorno s and Benjamin s micrologic Without such alternatives to intuitive imitation performance risks being disconnected from the audience

Elizabeth Sprague Coolidge Cyrilla Barr,1998 Elizabeth Sprague Coolidge supported the work of this century s greatest composers including Copland Milhaud Schoenberg and Stravinsky While some music aficionados may recognize her name and her more public works as a patron of the arts previously undisclosed insights about her private life will come as a revelation to all
