

The Great Debaters: Viewing Guide

Inspired by a true story, *The Great Debaters* chronicles the journey of Professor Melvin Tolson, a brilliant but volatile debate team coach who uses the power of words to shape a group of underdog students from a small African American college in the deep south into a historically elite debate team. A controversial figure, Professor Tolson challenged the social mores of the time and was under constant fire for his unconventional and ferocious teaching methods as well as his radical political views. In their pursuit for excellence, Tolson's debate team receives a groundbreaking invitation to debate Harvard University's championship team.

Guide to the study and use of reference books Alice Bertha Kroeger,1917 *She's Still There* Chrystal Evans Hurst,2017-08-08 Have you wandered from the life you want to live Chrystal Evans Hurst shares raw and vulnerable stories from her own life to let you know how you too can find your way back after a few missteps Over 100 000 copies sold What happens when a woman looks at herself

in the mirror lingering just a little longer than usual and realizes that she no longer recognizes the person staring back at her. What does she do when she sees that somehow her life has drifted away from all her original hopes, dreams, or plans? Speaker, blogger, and writer Chrystal Evans Hurst wrote this book because she was that woman. One day she realized that she had somehow wandered from the life she was meant to live. Chrystal since discovered that this moment of awareness happens to lots of women at different seasons of their lives. Poor decisions, a lack of intentionality or planning, or a long-term denial of deep hopes and dreams can leave a woman, old or young, reeling from the realization that she is lost, disappointed, or simply numb. And she just needs encouragement. This woman simply needs someone to hold her hand, cheer her on, and believe with her that she is still capable of being the person she intended to be. Chrystal uses her poignant story of an early and unexpected pregnancy, as well as other raw and vulnerable moments in her life, to let readers know she understands what it's like to try and find your way after some missteps or decisions you didn't plan on. In *She's Still There*, Chrystal emphasizes the importance of the personal process and the beauty of authentically sharing your journey, one girlfriend to another. It's a book of me-too reminders of the hoped-for and challenges for the path ahead to find direction, purpose, and true satisfaction. Also available: *She's Still There* DVD series and study guide.

[Fostering Habits of Mind in Today's Students](#) Jennifer Fletcher, Adela Najjarro, Hetty Yelland, 2023-07-03. Co-published with and Students need more than just academic skills for success in college and career, and the lack of an explicit instructional focus on the soft skills critical to postsecondary success poses a challenge for many students who enter college, especially the underprepared. Based upon a multi-campus, cross-disciplinary collaboration, this book presents the resulting set of habits-of-mind-based strategies that demonstrably help not only low-income, ESL, and first-generation college students overcome obstacles on the path to degree completion; these strategies equally benefit all students. They promote life-long integrative learning and foster intellectual qualities such as curiosity, openness, flexibility, engagement, and persistence that are the key to developing internalized and transferrable competencies that are seldom given direct attention in college classrooms. This contributed volume, written with full-time and adjunct faculty in mind, provides the rationale for this pedagogical approach and presents the sequential instructional cycle that begins by identifying students' assets and progressively focusing on specific habits to develop their capacity to transfer their learning to new tasks and situations. Faculty from both two-year and four-year colleges provide examples of how they implement these practices in English, math, and General Education courses, and demonstrate the applicability of these practices across course types and disciplines. Chapters address key factors of college success, including: The link between habits of mind and student retention and achievement; Using an assets-based approach to teaching and learning; Supporting and engaging students; Creating inclusive learning communities; Building confidence and self-efficacy; Promoting transfer of learning; Teacher networks and cross-disciplinary collaboration. By foregrounding habits of mind as an instructional lens, this book makes a unique contribution to teaching in developmental and general education settings.
