

Week 1

Diagnostics / Review

Part 1: Diagnostics

- Take the free diagnostics for all subjects
 - Math
 - Grammar
 - Vocabulary
 - Biology
 - Reading
 - Anatomy & Physiology (AAP)

Review your results

For topics where you scored well, check those the answer and try some additional questions to ensure that you are getting it right every time.

For topics where you scored lower, read your answers in detail, identify and note them down. For all of the material that you do not know, try to learn it through the week leading up to your exam.

For the other week to still have study material, you can do a diagnostic for the other subjects. If you score 80% or above on a test, it means you are doing better than you think you are. You can now skip that subject and study other subjects if you need to or have time.

You can also have topics which you scored lower on the diagnostic to study, which is a good idea, as that will help you to be ready for your exam.
