AP Euro: Enlightenment and French Revolution Test Review

Section 1: The Enlightenment

The Enlightenment was a period of expansion of great social and philosophical thought, as creative thinkers began to question why the kings of Europe should have absolute power. It was during this time that educated men began making arguments why the various governments of Europe should be reformed and political authority should be shared with a larger percentage of

people. <https://www.youtube.com/watch?v=3t311111111>

- The Enlightenment led to the rise of democracy in Europe because it inspired the majority to demand the same rights and privileges that the few enjoyed.
- The Magna Carta, Reform Bill of 1295 and the Parliamentary Act of 1321 were all steps by which Great Britain evolved towards democratic principles.
- The Magna Carta was important in the development of English democracy because it limited the authority of the King for the first time in writing.
- A valid conclusion that could be drawn about the development of democracy in England was that the authority of the monarchy declined over a long period of time.
- The Magna Carta and the English Bill of Rights were both documents that limited the power of the king.
- During the Enlightenment, progress through the use of reason was valued above all else.
