A new category of fill-in-the-blank questions has been added to the question options. There are now 180 fill-in-the-blank questions in addition to 1,421 multiple choice questions and 185 true or false questions. Some may require students to apply the chapter information to derive the correct answer. Students may test their understanding of the material by trying to answer the questions. Correct answers can be found in the back of the study guide. For questions that are answered incorrectly, return to the text and review the appropriate information. Through this process of review and self-testing, students can increase their understanding of the complexities of the criminal investigation process.

The questions test the student on every aspect of criminal investigation: the preservation and recording of the crime scene; the collection and analysis of evidence; the interviewing and interrogation of witnesses; the identification of suspects; rules of evidence; and the presentation of testimony in court. Special emphasis is placed on the investigation of major crimes. There are 38 chapters in the *OC Review Guide* corresponding to the 38 chapters in the textbook. An answer key is included at the end of each chapter. This guide is an excellent companion volume to the bestselling textbook and will be useful to students who are reviewing the important elements of this discipline in other criminal justice texts.
