Grand Opening Toolkit:

Seeds Toolkit - Module 5 Food and Agriculture Organization of the United Nations, 2018-10-18 Seeds are the vehicle for delivering the improvements in a crop to the farmer's field. They are therefore a critical input in agricultural production. Seeds are also unique in that they must remain alive and healthy when they are used and that they are also the input that farmers can produce by themselves. Module 5 Seed Marketing: this module presents the underlying principles for valuing and exchanging seeds. This module describes all the activities which are undertaken in getting seeds from the producers to the end users or farmers. The reader is provided guidance on how to conduct relevant research of the market for seeds, develop effective marketing strategies, articulate a marketing plan, and manage the associated risks.

Aubuchon Hardware Bernard W. Aubuchon, 2008 William E. Aubuchon Sr. immigrated to the United States from Canada in 1900 at the age of 15, speaking no English and armed with only a fifth grade education. Through hard work and perseverance, he established a hardware store in 1908 in Fitchburg, Massachusetts. One hundred years later, there are over 130 Aubuchon Hardware stores located throughout Connecticut, Maine, Massachusetts, New Hampshire, New York, and Vermont, employing about 1,100 people. This remarkable growth by Aubuchon Hardware can be attributed to the company treating its customers as friends and always making them number one. As William E. Aubuchon Sr. once said, "The business was founded on the principle of buying economically. We give our customers what they want: high grade hardware at a price everyone can afford." Aubuchon Hardware never lost track of where it started, and today it still remains all in the family with over 20 family members currently employed, including the fourth generation. In Aubuchon Hardware, family members were an invaluable resource for photographs and historical information.
