

## If you run out of space

4

If you run out of space in your answer booklet, ask the invigilator for a new booklet and complete your present booklet and name on the front page. If you are continuing with an answer that you started in your first booklet, write the question number again in the new booklet before continuing with your answer.

If you need to go back and write more for any of your answers at any stage, go to the end of the last answer that you wrote in your answer booklet, to the next available space, fill in the question number again and then continue your answer.

## Things important to know

- ✓ Write your candidate answer number.
- ✓ Read the 10-point contact of the examination centre in confidence. If you have any questions about what it says, contact the examination centre.
- ✓ Take only authorised material into the examination room. If you are found in possession of unauthorised material (for example, notes, a mobile/flip phone) you may be mistaken for a candidate who has breached the Regulations.
- ✓ Write in blue or black ink only, and use soft pencil for graphs and diagrams. The use of colour is only permitted in geography examinations.
- ✓ Don't show through any plan or working out that you do not want marked.
- ✓ At the end of the examination, place the books marked below together together in the following sequence:
  - the blue cover sheet at the front
  - the examination paper that says if this is the final of examination paper in which you write answers
  - the answer booklet(s)
  - unused paper (unless it shows any answer to a question)
  - graph paper

Thank you for doing your best together with a colleague.

## Answer Booklet Guide

1

## Introduction

This guide has been produced to help you as a candidate become familiar with the answer booklet in Bilingual Programme and BCC examinations.

### What does the answer booklet look like?

Each booklet consists of two pages. On the top of the first page there will be lines in which to indicate your pencil number and name, along with brief instructions on how to correctly write question numbers. The remainder of this page and of other pages, are for you to write your answers to examination questions. Please remember to write your answers on the lines, keeping within the large grid box on each page. Inside the lines the page answers are small boxes in which you must write the number of each question you answer.

available to each participant prejudice and exclusiveness are more likely to be assumed impeding individuals intercultural learning The key is to empower those less privileged giving them legitimacy to come to voice in an institutional context on the one hand and protecting their reflections on hegemonic discourse meticulously on the other hand Since the research explores the complexities and subtleties of the communication process that are bound to particular contexts like most ethnographic studies it aims at adding a body of experience and humanistic understanding of cultures rather than testing theories Although the IB Program being studied can hardly be representative of the overall development of international education in China the detailed description of contextual issues of the case and the research procedures could facilitate the readers to vicariously experience these events thus they can make their own decisions about the transferability of the research to their own unique situations
