

Introduction to the Land Rover 90/110 & Defender Diesel

The introduction of the Land Rover 90/110 and Defender Diesel is a significant step in the evolution of the Land Rover range. These vehicles are designed to provide the same level of performance and reliability as the classic Land Rover models, but with the added benefits of a diesel engine. The 90/110 and Defender Diesel are built on the same robust chassis as the classic models, ensuring they can handle the most demanding off-road conditions. The diesel engine provides a more economical and powerful alternative to the petrol engine, making these vehicles ideal for long-distance travel and heavy-duty work.
