## **Language Of Science Volume 5 M A K Halliday:**

*Language of Science* M.A.K. Halliday, 2006-06-19 Halliday's investigations into grammatical metaphor take us deeply into the way we construct and expand meanings starting with representations of concrete experienced events and ending with theoretical worlds populated by abstract entities linked through generalized relations and causalities. He finds these processes most strikingly in the development of the modern sciences that have historically created robust virtual worlds of theory from observable material events. He sees the same processes of grammatical metaphor as children learn to participate in our built symbolic environment particularly as they are introduced to these meaning systems in schools, an institution designed expressly for that purpose. Professor Charles Bazerman, University of California Santa Barbara. *Languages for Special Purposes* John Humbley, Gerhard Budin, Christer Laurén, 2018-10-22 This handbook gives an overview of language for special purposes (LSP) in scientific, professional and other contexts with particular focus on teaching and training. It provides insights into research paradigms, theories and methods while also highlighting the practical use of LSPs in concrete discourse situations. The volume is transdisciplinary oriented with a firm basis in the language sciences including terminology, knowledge transfer, multilingual and cross-cultural exchange. *Introducing Systemic Functional Linguistics* Hui Yu, Chenguang Chang, Bo Wang, Yuanyi Ma, 2025-09-12 This book provides a comprehensive introduction to Systemic Functional Linguistics (SFL) covering key concepts and contributions to the field and instructing beginners to apply SFL to different areas. Authored by contributors with extensive experience of teaching SFL, this book is composed of 14 chapters covering theories, descriptions and applications of SFL. It encompasses the following topics: SFL theory and the organizing principles; descriptions of various lexicogrammatical and semantic systems; grammatical metaphor register studies; different areas of SFL application including translation studies, multimodal discourse analysis and educational linguistics. Suitable to be used as teaching materials, the chapters are carefully organized into sections of learning outcomes, key terms, exercises and suggested readings. By introducing the theory and applications of SFL in accessible terms and requiring no prior knowledge, this practical book is a key reading for students new to the area. **Analysing Scientific Discourse from a Systemic Functional Linguistic Perspective** Jing Hao, 2020-01-21 This book describes the discourse of biology from a systemic functional linguistic perspective. It offers a detailed description of resources based on text analysis. The description reveals co-textual patterns of language features, their expressions through grammatical resources as well as their functions in the disciplinary context. The book also applies the description to analyse student texts in undergraduate biology, revealing characteristics of language and knowledge development. Although the discussion in this book focuses on the discourse of biology, both the language description and the descriptive principle can be used to inform the examination of knowledge in academic discourse in general, making this key reading for students and researchers in systemic functional linguistics, discourse analysis, English for academic purposes, applied linguistics and science education. **Key Themes and New**

**Directions in Systemic Functional Translation Studies** Bo Wang, Yuanyi Ma, 2022-04-19 This collection features eight interviews with seven senior scholars whose seminal works involve the application of Systemic Functional Linguistics (SFL) to translation studies have advanced Systemic Functional Translation Studies (SFTS) as a research agenda in its own right with critical reflections and insights into future directions The book introduces SFTS as a research field tracing its development and situating the contributions of the scholars interviewed within this tradition An international group of researchers working across a diverse range of topics within SFTS are interviewed including Christian M I M Matthiessen Erich Steiner J R Martin Juliane House Jeremy Munday Adriana Pagano and Akila Sellami Baklouti Taken together the collection offers a comprehensive account of theoretical and methodological developments in SFTS with critical overviews of these scholars' body of work within the research area and reflections on the emerging research that pushes SFTS scholarship into new frontiers This volume will be of particular interest to scholars in translation studies and Systemic Functional Linguistics as well as those interested in innovations in linguistic theory

**Theorizing and Applying Systemic Functional Linguistics** Bo Wang, Yuanyi Ma, 2023-12-29 This collection reflects on developments in the field of Systemic Functional Linguistics (SFL) as embodied in the work of Christian M I M Matthiessen highlighting his diverse contributions to the field from theoretical and applied perspectives The book surveys Matthiessen's academic career and illustrates the myriad ways in which his work has reverberated through to current innovations in SFL research The book also exhibits his theoretical contributions to major linguistic topics and his influence on the development of SFL Written by some of the world's foremost scholars in the field chapters cover such topics as theories of SFL and its applications in different domains as well as the developmental trajectories of SFL in major geographic areas Addressing the key issues in SFL through the lens of Matthiessen's career this book is an accessible resource for students and scholars in systemic functional linguistics as well as those interested in the systemic functional approach in related areas within linguistics

**Applicable Approaches to Analyzing Texts in Academic Discourse** Alireza Jalilifar, Alexanne Don, 2024-01-03 This book provides a comprehensive overview of approaches to problems of language learning aimed at graduate students and researchers interested in English for academic purposes Its primary focus is the complexity and nuances of academic writing such as phraseology nominalization thematicity and phrasal complexity features The book will clarify the issue of how language is used to communicate discipline-related content viewed through the lens of linguistics as one of the human sciences Each chapter concludes with several tasks that enable users to substantiate what has been presented in that chapter The book primarily addresses non-native speakers of English who are studying for master's and PhD qualifications through the medium of English however non-native researchers may also find some chapters of the book useful for their underlying focus on academic writing and publishing

**Systemic Functional Insights on Language and Linguistics** Christian M.I.M. Matthiessen, Bo Wang, Yuanyi Ma, Isaac N. Mwinlaaru, 2022-04-05 This book features a collection of 10 interviews with Christian M I M Matthiessen who is a key figure in Systemic Functional

Linguistics SFL and has collaborated closely with M A K Halliday since the 1980s As noted by Professor Chang Chenguang Editor of the M A K Halliday Library Functional Linguistics Series this collection of interviews serves as an important reference for scholars and students of SFL It provides a unique perspective on the theoretical development and future outlooks of SFL as well as Matthiessen s own interpretations of the theory It also enriches our understanding of SFL and is a very useful addition to the series Written in an engaging dialogic format the book paints a vivid picture of SFL thriving among the landscape of general linguistics and of SFL as an important tool now being applied in various areas

**War and Its Ideologies** Annabelle Lukin,2018-10-09 Ideology is so powerful it makes us believe that war is rational despite both its brutal means and its devastating ends The power of ideology comes from its intimate relation to language ideology recruits all semiotic modalities but language is its engine room Drawing on Halliday s linguistic theory in particular his account of the semiotic big bang this book explains the latent semiotic machinery of language on which ideology depends The book illustrates the ideological power of language through a study of perhaps the most significant and consequential of our ideologies those that enable us to legitimate celebrate even venerate war at the same time that we abhor denounce and proscribe violence To do so it makes use of large multi register corpora including the British National Corpus and the reporting of the 2003 invasion of Iraq by Australian US European and Asian news sources Combining detailed text analysis with corpus linguistic methods it provides an empirical analysis showing the astonishing reach of our ideologies of war and their profoundly covert and coercive power
