Teaching and Learning English through Bilingual Education Juan de Dios Martínez Agudo, 2012-01-24 These days numerous studies document and advocate the potential effectiveness of the CLIL approach which is viewed as a real revolution in second language pedagogy European bilingual education models are currently exemplified by CLIL Content and Language Integrated Learning a new generic and or umbrella term for bilingual education which has been rapidly spreading throughout Europe since the mid nineties Over the

last decade there has been an explosion of interest in CLIL pedagogy in Europe and beyond. However, CLIL pedagogy also involves complex challenges concerning its implementation and the professional development of teachers. This publication provides readers with a collection of original papers covering essential aspects of CLIL pedagogy. This collection of papers serves as a good indication that valuable research is being conducted throughout Europe and that CLIL research is establishing itself as an important area of applied linguistics. This book is mainly addressed to those in-service teachers who teach in bilingual classrooms anywhere in the world under any circumstances and who wish to know more about CLIL pedagogy. It can also be used as a helpful handbook for EFL student teachers. The book is also for teacher trainers running both pre-service and in-service courses.

Content and Language Integrated Learning Yolanda Ruiz de Zarobe, 2017-10-02. This book explores some of the recent research undertaken on Content and Language Integrated Learning (CLIL). It offers an overview of several European contexts describing experiences that could be extrapolated to many other communities worldwide. Contributions focus on issues related to language policy, moving from high-level policymaking to grassroots decisions, but all of them encompassing the major changes that can be recognized in education, which also evidence the shifts in society and economic life that have taken place in Europe in the last decades. These changes in language policy issues are coupled with changes in CLIL practice in the classroom. These national initiatives are displayed across a wide range of educational perspectives, portraying the diversity that is a distinctive feature of CLIL in the European educational mosaic. By providing new insights into pedagogic, methodological, and language policy issues in CLIL and by covering some areas which have been insufficiently addressed in the literature, such as the implementation of CLIL in less successful contexts or learner-teacher collaboration in the classroom, this book will be of great value to researchers, stakeholders, and professionals interested in CLIL and language education. This book was originally published as a special issue of the *International Journal of Bilingual Education and Bilingualism*.

specific knowledge with particular reference to university settings The volume is timely as it contains original research addressing both theoretical reflections and practical information on how content lecturers can enhance the effectiveness of their teaching practice through English including a relatively unexplored and increasingly relevant topic represented by the synergy between spoken input and written and multimodal materials Moreover it provides insight for EAP teachers and EMI training professionals into how lecturer training programmes and activities can be improved by focusing on communicative functions and presentation strategies that can selectively address and improve students mastery of disciplinary discourse

Finnish Basque Spanish Japanese French Italian Catalan as well as the target foreign language e.g. English French Italian Japanese Spanish makes the volume specially attractive. Additionally, the different approaches adopted by the researchers participating in this volume, such as information processing, sociocultural theory, or conversation analysis, widen the realm of investigation on discourse and language learning. Finally, the strength of the volume also lies in the range of educational settings, primary, secondary, and tertiary education, and the worldwide representation of contributors across seven different countries, namely those of Spain, France, Austria, Finland, Germany, Canada, Australia, and the United States. The uniqueness of the volume is due to its eclectic and comprehensive nature in tackling instructional discourse. Worldwide outstanding researchers like Julianne House, Carme Muñoz, Ute Smit, Tarja Nikula, or Roy Lyster, to quote but a few, adopt different perspectives in this joint contribution that will certainly broaden the scope of research on language learners' discourse.
