Life Science Exemplar 2013 Grade 10:

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Creating Effective Teaching and Learning Spaces: Shaping Futures and Envisioning Unity in Diversity and Transformation Zilungile Lungi Sosibo, Eunice Ivala, 2021-09-07 Higher education in post apartheid South Africa was always likely to attract academic interest and yet there remains a dearth of research on creating teaching and learning spaces suitable for students from diverse backgrounds Using examples from higher education institutions across the Southern African Developing Community SADC region this volume explores the ways teaching and learning spaces are being used to advance the transformation agenda of higher education in these regions and provides concrete recommendations for the future The book is sure to appeal to academics from a variety of disciplines from African African American and ethnic studies to education and sociology It will be of particular interest to teacher trainers administrators and policy makers working in higher education and anyone else with a stake in managing cultural diversity in education

Science and Technology Teacher Education in the Anthropocene Miranda Rocksén, Elaosi Vhurumuku, Maria Svensson, Emmanuel Mushayikwa, Audrey Msimanga, 2022-05-17 This unique book compares anthropogenic challenges in science and technology teacher education between the northern and southern contexts of Sweden and South Africa respectively Presenting the results of a three year research collaboration between science and technology teacher education researchers from South Africa and Sweden the book explores theoretical perspectives and pedagogical experiences in response to challenges in the Anthropocene It discusses research informed practice in teacher education to address

sustainable development Chapters in the book collectively investigate the influence of current environmental and societal changes on the education of teachers answering the question of how science and technology teacher education can adjust to current changes in the world and prepare new teachers for work in their future profession Touching on issues such as climate change global warming and pandemic diseases the book uses a comparative approach and explores opportunities and possibilities for fulfilling the goals of science and technology education for sustainable development The book offers recommendations and opportunities to implement sustainability issues and develop sustainable teaching strategies It will be a key reading for researchers academics and post graduate students in the fields of teacher education science and technology education sustainability education and comparative education

The Cambridge Handbook of Motivation and Learning K. Ann Renninger, Suzanne E. Hidi, 2019-02-14 Written by leading researchers in educational and social psychology learning science and neuroscience this edited volume is suitable for a wide academic readership It gives definitions of key terms related to motivation and learning alongside developed explanations of significant findings in the field It also presents cohesive descriptions concerning how motivation relates to learning and produces a novel and insightful combination of issues and findings from studies of motivation and or learning across the authors collective range of scientific fields The authors provide a variety of perspectives on motivational constructs and their measurement which can be used by multiple and distinct scientific communities both basic and applied

Implementation of Large-Scale Education Assessments Petra Lietz, John C. Cresswell, Keith F. Rust, Raymond J. Adams, 2017-03-07 Presents a comprehensive treatment of issues related to the inception design implementation and reporting of large scale education assessments In recent years many countries have decided to become involved in international educational assessments to allow them to ascertain the strengths and weaknesses of their student populations Assessments such as the OECD s Programme for International Student Assessment PISA the IEA s Trends in Mathematics and Science Study TIMSS and Progress in International Reading Literacy PIRLS have provided opportunities for comparison between students of different countries on a common international scale This book is designed to give researchers policy makers and practitioners a well grounded knowledge in the design implementation analysis and reporting of international assessments Readers will be able to gain a more detailed insight into the scientific principles employed in such studies allowing them to make better use of the results The book will also give readers an understanding of the resources needed to undertake and improve the design of educational assessments in their own countries and regions

Implementation of Large Scale Education Assessments Brings together the editors extensive experience in creating designing implementing analysing and reporting results on a wide range of assessments Emphasizes methods for implementing international studies of student achievement and obtaining highquality data from cognitive tests and contextual questionnaires Discusses the methods of sampling weighting and variance estimation that are commonly encountered in international large scale assessments Provides direction and stimulus for improving global educational

assessment and student learning Is written by experts in the field with an international perspective Survey researchers market researchers and practitioners engaged in comparative projects will all benefit from the unparalleled breadth of knowledge and experience in large scale educational assessments gathered in this one volume

Biological Invasions in South Africa Brian W. van Wilgen, John Measey, David M. Richardson, John R. Wilson, Tsungai A. Zengeya, 2020-03-10 This open access volume presents a comprehensive account of all aspects of biological invasions in South Africa where research has been conducted over more than three decades and where bold initiatives have been implemented in attempts to control invasions and to reduce their ecological economic and social effects It covers a broad range of themes including history policy development and implementation the status of invasions of animals and plants in terrestrial marine and freshwater environments the development of a robust ecological theory around biological invasions the effectiveness of management interventions and scenarios for the future The South African situation stands out because of the remarkable diversity of the country and the wide range of problems encountered in its varied ecosystems which has resulted in a disproportionate investment into both research and management The South African experience holds many lessons for other parts of the world and this book should be of immense value to researchers students managers and policy makers who deal with biological invasions and ecosystem management and conservation in most other regions

EMI Classroom Communication Slobodanka Dimova, Joyce Kling, Branka Drljača Margić, 2023-10-31 Examining English medium instruction EMI through a corpus based approach this volume offers a critical inquiry into the use of different linguistic and pedagogical strategies in the EMI classroom It explores aspects of content lecturers language use pedagogy and intercultural communicative competence by drawing on the findings obtained from EMI lecture corpus analysis and post observation interviews with EMI lecturers from five universities in Croatia Denmark Italy the Netherlands and Spain The book also offers insights into lecturers engagement with students in English which is their second language as well as their perception of differences between EMI and first language medium instruction L1MI Finally the volume provides readers with corpus based analysis of teachers oral ability profiles as a basis for the identification of communicational challenges and provision of language support The book will be of interest to scholars interested in EMI in higher education and postgraduate students in applied linguistics and TESOL programs It will also be relevant to teachers who are involved in EMI provision teacher trainers who design support programs for EMI teachers and policymakers who establish language in education policies for EMI
