*Shared Governance for Sustainable Working Landscapes* Timothy M. Gieseke, 2016-08-05 Sustaining our agricultural landscapes is no longer just a technical scientific or even political problem but it has evolved into a socially complex so called wicked problem of conflicting social governance and economics This creates an extreme economic obstacle where the value of ecosystem services remains low and diffuse and the transactions costs remain high and multiple Using Uber like business platform technology and a shared governance model a symbiotic demand for environmental benefits is created Enabling multi sector transactions for environmental benefits this platform innovation would remedy the tragedy of the commons the economic nemesis to achieving landscape sustainability In a nutshell to sustain our agricultural landscapes a transdisciplinary approach supported by a shared governance model housed within a multi sided platform is needed This book introduces an assessment framework identifying governance actors styles and ratios for socio ecological systems The assessment uses a new governance compass to identify the types of actors completing which tasks and identifies the styles of governance used to complete the tasks It is aimed to anyone involved in sustainability science agricultural policy planning or integrated landscape design

**2016 GUIDELINES FOR INVESTIGATING GEOLOGIC HAZARDS AND PREPARING ENGINEERING-GEOLOGY REPORTS, WITH A SUGGESTED APPROACH TO GEOLOGIC-HAZARD ORDINANCES IN UTAH** Steve D. Bowman, William R. Lund, 2016-09-21 The purpose of these guidelines for investigating geologic hazards and preparing engineering geology

reports is to provide recommendations for appropriate minimum investigative techniques standards and report content to ensure adequate geologic site characterization and geologic hazard investigations to protect public safety and facilitate risk reduction. Such investigations provide important information on site geologic conditions that may affect or be affected by development as well as the type and severity of geologic hazards at a site and recommend solutions to mitigate the effects and the cost of the hazards both at the time of construction and over the life of the development. The accompanying suggested approach to geologic hazard ordinances and school site investigation guidelines are intended as an aid for land use planning and regulation by local Utah jurisdictions and school districts respectively. Geologic hazards that are not accounted for in project planning and design often result in additional unforeseen construction and or future maintenance costs and possible injury or death.

**Africa's Lions** Haroon Borat, Finn Tarp, 2016-11-08. Examining the economic forces that will shape Africa's future. *Africa's Lions* examines the economic growth experiences of six fast growing and or economically dominant African countries. Expert African researchers offer unique perspectives into the challenges and issues in Ethiopia, Ghana, Kenya, Mozambique, Nigeria, and South Africa. Despite a growing body of research on African economies, very little has focused on the relationship between economic growth and employment outcomes at the detailed country level. A lack of empirical data has deprived policymakers of a robust evidence base on which to make informed decisions. By harnessing country level household, firm, and national accounts data together with existing analytical country research, the authors have attempted to bridge this gap. The growth of the global working age population to 2030 will be driven primarily by Africa, which means that the relationship between growth and employment should be understood within the context of each country's projected demographic challenge and the associated implications for employment growth. A better understanding of the structure of each country's workforce and the resulting implications for human capital development, the vulnerably employed, and the working poor will be critical to informing the development policy agenda. As a group, the six countries profiled in *Africa's Lions* will largely shape the continent's future. Each country chapter focuses on the complex interactions between economic growth and employment outcomes within the individual *Africa's Lions* context.

*Yearbook of International Organizations 2013-2014 (Volumes 1A-1B)* Union of International Associations, 2013-06-21. Volume 1 A and B covers international organizations throughout the world, comprising their aims, activities, and events.

*The European Union in the 21st Century* Nikolaos Zahariadis, 2023-08-24. The European Union in the 21st Century takes a fresh look at a complex and ever-changing organization by examining its pursuit of two very different objectives: power, security, and political weight, and plenty, economic growth, and social welfare. Nikolaos Zahariadis aims to help students understand these two objectives and how the tension between them affects different issue areas, illuminating how each objective represents a different perspective on what the EU is and what it does. The book also introduces students to the systematic thinking that political scientists employ to see the connections between policies, institutions, and actors. By unpacking the various perspectives

students will gain greater insight into how policymakers think and why EU leaders make the kinds of decisions they do

*The 1970 UNESCO and 1995 UNIDROIT Conventions on Stolen or Illegally Transferred Cultural Property*, 2024-02-06

The illicit traffic in cultural objects is a grave concern to the general public and international community. The resulting cultural damage fuels debates on how best to regulate the trade in cultural objects and inform legal responses at all levels for the protection of movable cultural heritage. Treaties concerning the treatment of cultural objects during peacetime and war represent some of the earliest multilateral initiatives on cultural heritage in the modern era. They also remain some of the most deeply contested, representing shifting fault lines within the international community. Authored by leading scholars and practitioners from around the world, this Commentary is the first to cover the two leading multilateral treaties on movable cultural heritage in one volume: the Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property adopted by UNESCO in 1970 and the Convention on Stolen or Illegally Exported Cultural Objects adopted by UNIDROIT in 1995. This Commentary is designed to be the authoritative text for academics, lawyers, policymakers, and diplomats on the protection and regulation of cultural objects. Encompassing both public and private international law rules on the trade in cultural objects, it provides a detailed historical and thematic overview. Drawing on the travaux préparatoires and intergovernmental and state practice over the last half century, the Commentary provides an article-by-article analysis of the interpretation and application of these treaties. The texts of the 1970 UNESCO and 1995 UNIDROIT Conventions are examined in the working context of other culture conventions, including the World Heritage Convention and the Intangible Heritage Convention, as well as related fields of international law, such as international humanitarian law, international criminal law, human rights law, and international economic law. The volume also offers a critical examination of current trends and future directions which are informing the field.

**optical fibre toolbox file exchange matlab central** - Apr 12 2023

web dec 8 2011 optical fibre toolbox oft provides functions for fast automatic calculation of guided modes in simple optical fibres developed with tapered microfibres aka nanofibres in mind exact solutions for weak and strong guidance cases are provided

interactive simulation toolbox for optics file exchange matlab - May 13 2023

web may 13 2013 the interactive fdtd toolbox for matlab is a simulation software to model and simulate two dimensional optical systems in te polarization it was designed for educational purposes no further knowledge of matlab

matlab toolboxes for optical simulations beamlab - Aug 16 2023

web toolbox for matlab implementing a beam propagation method bpm solver and a waveguide mode solver intuitive user interface based on matlab no hassle with learning a new proprietary language full vectorial and semi vectorial beam propagation and mode analysis based on the finite difference method

**raytracing github topics github** - Feb 10 2023

web dec 19 2022 a paraxial gaussian optics matlab toolkit for sequential 2d meridional plane ray tracing intended for educational analysis of optical systems with arbitrary lenses and stops optics raytracing sequential meridional matrix methods dioptric systems paraxial updated on may 30 2022

*optical flow with matlabs computer vision toolbox* - Jan 09 2023
