

INTRODUCTION

Your new 962 Harvest Header is designed to serve a dual function in your grain and specialty crop harvesting operation:

1. Teamed with your self-propelled windrower power unit, the header will cut and lay crop into uniform fluffy windrows. Windrowing allows starting the harvest earlier, protects the crop from wind damage, and gives you more flexibility in scheduling combine time. (The left deck of the 962 Header can be manually shifted over the center opening to deliver crop to the end of the header, which allows using your combine as the power unit when windrowing.)
2. When conditions are right for straight cutting, the header can quickly be attached directly to your combine with the addition of an adapter. When weather is not a critical factor, straight cutting eliminates the windrowing operation.

NOTE: This manual contains information on the Harvest Header. It must be used in conjunction with your Windrower, Tractor and/or Combine Operator's Manual. As well, a separate manual is provided for the adapter that is required to allow attachment of the header to the various makes and models of combines and tractors.

CAREFULLY READ ALL MANUALS TO BECOME FAMILIAR WITH RECOMMENDED PROCEDURES BEFORE ATTEMPTING TO UNLOAD, ASSEMBLE OR USE THE MACHINE.

Use this manual as your first source of information about the header. If you follow the instructions given in this manual your Harvest Header will work well for many years.

This manual contains information on "Safety", "Operation" and "Maintenance/Service". In addition, "Unloading and Assembly" instruction is given towards the back of this book.

Use the Table of Contents and the Index to guide you to specific areas. Study the Table of Contents to familiarize yourself with how the material is organized.

Keep this manual handy for frequent reference and to pass on to new operators or owners. Call your dealer if you need assistance, information or additional copies of the manual.

NOTE: Right hand (R/H), and Left hand (L/H) designations are determined from the operators position, facing forward.
