Twins in Early Modern English Drama and Shakespeare Daisy Murray, 2017-01-06 This volume investigates the early modern understanding of twinship through new readings of plays informed by discussions of twins appearing in such literature as anatomy tracts midwifery manuals monstrous birth broadsides and chapbooks The book contextualizes such dramatic representations of twinship investigating contemporary discussions about twins in medical and popular literature and how such dialogues resonate with the twin characters appearing on the early modern stage Garofalo demonstrates that in this period twin births were viewed as biologically aberrant and because of this classification authors frequently attempt to explain the phenomenon in ways which call into question the moral and constitutional standing of both the parents and the twins themselves In line with current critical studies on pregnancy and the female body discussions of twin births reveal a distrust of the mother and the processes surrounding twin conception however a corresponding suspicion of twins also emerges which monstrous birth pamphlets exemplify This book analyzes the representation of twins in early modern drama in light of this information moving from tragedies through to comedies This progression demonstrates how the dramatic potential inherent in the early modern understanding of twinship is capitalized on by playwrights as negative ideas about twins can be seen transitioning into tragic and tragicomic depictions of twinship However by building toward a positive comic representation of twins the work additionally suggests an alternate interpretation of twinship in this period which appreciates and celebrates twins because of their difference The volume will be of interest to those studying Shakespeare and Renaissance Literature in relation to the History of Emotions the Body and the Medical Humanities

The Transformations of Tragedy Fionnuala O'Neill Tanning,Erik Tanning,Jolyon Mitchell,2019-11-26 The Transformations of Tragedy Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post classical Western tragedy The volume is divided into three parts early modern modern and contemporary This series of essays by established and emergent scholars offers a sustained study of Christianity s creative influence upon experimental forms of Western tragic drama Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history yet Christianity s diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity

most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation
