Teaching Computing Henry M. Walker, 2018-04-24 Teaching can be intimidating for beginning faculty. Some graduate schools and some computing faculty provide guidance and mentoring but many do not. Often a new faculty member is assigned to teach a course with little guidance input or feedback. *Teaching Computing: A Practitioner's Perspective* addresses such challenges by providing a solid resource for both new and experienced computing faculty. The book serves as a practical, easy-to-use resource covering a wide range of topics in a collection of focused, down-to-earth chapters. Based on the author's extensive teaching experience and his teaching-oriented columns that span 20 years and informed by computing education research, the book provides numerous elements designed to connect with teaching practitioners, including a wide range of teaching topics and basic elements of teaching, including tips and techniques. Practical tone: the book serves as a down-to-earth practitioners' guide. Short, focused chapters. Coherent and convenient organization. Mix of general educational perspectives and computing-specific elements. Connections between teaching in general and teaching computing. Both historical and contemporary perspectives. This book presents practical approaches, tips, and techniques that provide a strong starting place for new computing faculty and perspectives for reflection by seasoned faculty wishing to freshen their own teaching.

Toward a 21st-Century School Library Media Program Esther Rosenfeld, David V. Loertscher, 2007-10-15 This collection of enlightening and stimulating articles written by some of the most important figures in school librarianship demonstrates how teacher librarians, classroom teachers, and administrators can work together to create a 21st-century school library media program. With topics that emphasize student success, leadership, partnerships, curriculum design, collaborative planning, and teaching literacy, 21st-century skills, emerging technologies, and so much more, this compendium brings together the best of the best discussions. The practicing teacher librarian, as well as the student seeking to expand his or her knowledge of the field, will find this compilation especially beneficial in providing an overview of the most critical issues related to the role the teacher librarian plays in their school. The articles, previously published in the peer-reviewed *Teacher Librarian: The Journal for School Library Professionals*, with several included from the magazine *VOYA: Voice of Youth Advocates*, reveal how school libraries and teacher librarians are moving forward to meet the challenges of this new century.

Multi-Tiered Systems of Support Lesley Sylvan, 2020-10-13 Many school-based speech language pathologists (SLPs) deal with large caseloads and limited resources. Taking on additional workload by implementing multi-tiered systems of support (MTSS) can seem overwhelming. *Multi-Tiered Systems of Support: Implementation Tools for Speech Language Pathologists in Education* offers practical, research-based tools that school-based SLPs can use to balance the high demands of their job with supporting general education students. This professional resource provides answers to a range of questions about policy implications, applicability of the framework to a speech language pathologist's role in schools, and how an SLP can implement MTSS in their practice. Part I breaks down the important concepts of MTSS, while Part II is designed as an SLP MTSS Toolkit.

featuring the collective wisdom of practitioners and researchers in the field Throughout the text readers will also find real world snapshots of MTSS in action based on the experiences of actual SLPs in the field Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book
