Activities Workbook includes Activities Workbook About the Program Interactive Science Activity Workbooks develop the
skills necessary for children to truly understand science concepts with Fun educational activities for kids Opportunities for
kids to create their own experiments Easy step by step instructions for kids to complete experiments at home Key Points
Program Differentiators Customized for at home use Individual attention Uses easy to find materials Visually engaging and
fun to use Program Overview The Interactive Science Activities workbooks are designed for the home environment and
modified from the lengthy lab manuals used in schools They are custom designed at home activities for students and parents
to use on their own or with the Interactive Science grade level bundles The Pearson at Home Interactive Science Activities
workbooks provide children with a student centered approach to scientific discovery Each hands on activity presents a child
with a challenging question that can be investigated and explored independently or with parent guidance As part of the
directed inquiry process the child will answer this question by exploring the resources following the outlined procedures of
each activity collecting data and drawing conclusions In some instances parents might need to help children with certain
parts of the activity Following the directed inquiry the child will be given an opportunity to expand and demonstrate scientific
reasoning by modifying the investigation and designing his or her own experiments to illustrate the concept Utilizing these

activities will encourage every child to think like a scientist and encourage him or her to be inquisitive This curriculum has been modified specifically for homeschool families At times there may be references to print or digital components that are not included within the homeschool bundle This will not hinder your child s successful completion of the course
