theory what it means to be an African American or Asian theorist let alone a French German or Spanish one in the new millennium is as complicated or simple as what means to be African American or Asian Worlded literature is not considered here as only the world literature of nations and nationalities Rather it is also the worlded literature of individuals crossing borders mixing stories and speaking in dialect So too is it the worlded literature of the multinational corporate publishing industry wherein success in the global market is a major determinate of aesthetic and literary value Offering accounts of what it means to consider theory as world literature the authors in this pioneering collection explore the ways in which we might regard theory as connected and reconnected through global literary networks of increasing complexity and precarity By approaching theory from this perspective Theory as World Literature demonstrates how and why theory is more worldly now than ever
