Grade 9 Ana Question Papers:

Confronting Exclusion African Minds,2013 South Africa has made important political strides over the past two decades It has created a framework of democratic legislative executive and judicial institutions that mark a clear break from the apartheid past In theory they are inclusive and offer every citizen equal access to constitutionally protected rights Their capacity to deliver however is coming under increasing pressure and as this happens citizen confidence in their efficacy is waning Much of the pressure which ultimately may affect their legitimacy in the eyes of ordinary citizens stems from the desperation and sense of economic exclusion experienced by those who find themselves at the wrong end of South Africa s grossly unequal society If this decline in trust persists the cohesive effects of the country s democratic institutions will diminish and instability will become an increasingly common feature of political contestation An immediate but only partial remedy to the current state of affairs would be to prioritise transparency accountability and leadership integrity within the system to restore trust in the bona fides of key institutions The longer term challenge will be to counter a growing sense of economic exclusion where violent police action rather than democratic process is increasingly employed to stave off the manifestations of material anxiety experienced by struggling citizens This edition of the Transformation Audit titled Confronting Exclusion focuses on instances of such exclusion but as in previous years also prioritises the search for inclusive economic policy and future strategies to address them By looking at each of the four chapter areas it seeks to find answers to the challenge of a society in which the promise of true freedom and equal rights will remain only that until people feel equipped to be in charge of their own destiny and that of their children
