

# HOW TO WRITE A THESIS STATEMENT?

## HOW TO WRITE AN EXPOSITORY ESSAY

### FOR ASSIGNED SUBJECTS

If you have been asked to write an essay on a specific subject or topic, you can model your thesis statement around this. For example, if you have been given the essay question of 'How does unemployment affect homelessness?' you could write a thesis statement in direct reply to this, it might look something like the following...

**"Unemployment affects homelessness in two ways, it causes a rise in how many homeless people there are which in turn has an effect on how much money is being spent on charities such as food banks and homeless shelters."**

This statement neatly sums up the main point of the essay and gives a brief look into what is going to be discussed in more depth throughout the piece of writing.

If you have free reign over the essay topic, you must first select what you are going to write about. Once you have decided on this, you can begin crafting your thesis statement. You should remember to ensure that the thesis statement takes care of the following points:

- Show one main argument or idea
- Gives space for people to disagree.
- Shows your personal conclusion on the topic.

Now let's presume that you have chosen the topic of whether homework is conducive to learning, you need to take into consideration the following points:

- What is the main point of the essay?
- What are your views on the topic?
- Can you find any research to back your opinion or even change it?

When you have answered these questions, you are then more easily able to come up with a good thesis statement. As with the assigned essay, it is important to answer a question with your thesis statement. So, considering we are writing an essay on the subject of homework, you could then turn that subject into a question 'Is homework conducive to learning?' Your thesis statement might look something like this:

**"More and more parents are refusing to allow their children to do homework, saying that it eats into their free time and provides no benefit to learning. It has been shown that this is not true, in a study conducted in Germany, 90% of children who completed homework passed their exams with a higher grade."**

The above thesis statement is strong because it:

- Shows the author's stance on the topic.
- Provides a clear insight to the essay purpose.
- Uses clear and concise language and does not waffle.
- Expresses one main argument.

### FOR NON-ASSIGNED SUBJECTS

## ADDITIONAL TIPS FOR A GOOD THESIS STATEMENT

We are now going to look at some final hints to ensure that you write the best thesis statement possible.

- Ensure that your thesis statement appears in your introduction and conclusion and does not get buried deep within the body of the essay.
- Make sure that the thesis statement does not exceed two sentences.
- Avoid making obvious statements such as 'this is an essay about....' or 'the point of this paper is....' The thesis statement should be able to convey this without using such up-front language.
- Write clearly and articulately.

[The Art and Architecture of Academic Writing](#) Patricia Prinz, Birna Arnbjörnsdóttir, 2021-08-15  
This book is a bridge to confident academic writing for advanced non-native English users. It emphasizes depth over breadth through mastery of core writing competencies and strategies which apply to most academic disciplines and genres. Tailored to students in EMI programs, the content was piloted and revised during a longitudinal writing study. The innovative approach prepares students to write for the academic community through the dual lenses of Art (developing a writer's voice through choices in language style and topics) and Architecture (mastering norms of academic language genre and organization). The user-friendly text maximizes time for writing practice and production by avoiding lengthy readings. Part 1 builds skills and confidence in writing by focusing on assignments that do not require research. Part 2 applies newly mastered principles, skills, and strategies to research-based writing. Students learn to incorporate thesis, research, and evidence into a process for academic writing by following the AWARE framework: Arranging to write, Writing, Assessing, Revising, and Editing.
