**Chemistry** Martin Stuart Silberberg, 1996. This general chemistry text centres on the theme that observable change in chemical systems is the result of molecular change. The aims of this edition are to enable students to perceive matter and change at the molecular level and to help build student confidence in their ability to solve chemical problems as they discover the relevance of chemistry to their lives. Chemistry John McMurry, Robert C. Fay, 2001. A colorful pedagogically enhanced standard textbook for the introductory course. It begins with atomic structure, proceeds next to bonding and molecules, then to bulk physical properties of substances and ends with a study of chemical properties. Each chapter concludes with a brief description of an interesting application or extension of the chapter, a summary, a list of key words and a large number of problems. Many student-oriented supplements are available. Annotation copyright by Book News Inc, Portland, OR.
