

Reflective Journal Template.

Reflective journal is a requirement of all clinical placements.

This reflective journal will be utilized throughout to demonstrate your engagement in the process of continual learning within the Diploma of Nursing HLT51612 and facilitate critical thinking and nursing enquiry into current nursing practices.

The reflective journal is designed to help understand your own biases, or particular way of looking at phenomena, so that you can discover how your previous views might be impacting on their ability to develop new knowledge. You will need to become astute observers within your practice and make connections about what you already know and what you are learning.

This reflection is a facilitation of nursing enquiry and will help you to ask questions, put information together and make new discoveries or to come up with new solutions to old problems. Regular reflection on your nursing practice increases your ability to be active and enthusiastic about developing and maintaining quality care in the health care setting.

Your journal entries should not just be lists of what you did each shift but how you felt, what you learned and how you could improve in your practice. *The journal should not be used to make derogatory comments or reference to colleagues or the subject.*

Download this document, complete all journal entries and then upload these journals onto moodle.

Nursing Lynne Walker, Doris Young, 2015-03-06 General Practice Nursing is the first Australian textbook developed specifically for practice nurses. The textbook provides practice nurses with information on a range of clinical and professional topics in a concise, easy-to-read format. This textbook offers practice nurses information on a range of clinical and professional topics in a concise, easy-to-read format. General Practice Nursing offers evidence-based contextual information supported by case studies to assist nurses in applying theory to practice. Clinical topics such as immunisation, triage, mental health, wound management, pharmacology, and chronic disease management will be coupled with more broad general topics such as the role of the practice nurse, the Australian health system, the scope of general practice, building research capacity, evidence-based practice, continuing professional development, and nurse-led care. To encourage reflective practice, each chapter includes questions throughout the text, testimonials, and reflection questions. General Practice Nursing uses a similar format to the highly successful textbook John Murtagh's General Practice with colourful, easy-to-read headings and photographs.
